

WOMAN PLAYS TRANSPACIFIC FLIGHT

CONFERENCE ON EDUCATION OPENS HERE

WORLD OF LITERATURE AND CULTURE GATHERED FOR SESSIONS TO-DAY

Over Six Hundred and Fifty Registrations Mark Inaugural of Fourth Triennial Conference of National Council of Education; Mayor Ansonb Presides at Opening Session This Afternoon; Toyokichi Fukuma Introduces Japanese Educational Films; Robert Jarman Speaks on "Education for Health."

With delegates assembled from widely-flung sections of the British Empire and other countries of the world, the Fourth Triennial Conference of the National Council of Education opened its preliminary sessions in Victoria to-day.

The world of literature and culture is embraced by the personnel of the conference. Some of the greatest thinkers and the most eminent educationists of the day have gathered here for the advancement of education.

The countries represented are Great Britain, Canada, Australia, New Zealand, India, France, Italy, Japan, Germany and Czechoslovakia.

The chief speakers at the Victoria conference will be His Excellency the Governor-General, Viscount Willingdon, Dr. Laurence P. Rushbrook Williams, Foreign Minister to the State of Patiala, and special representative of the Indian Chamber of Princes, and Sir Rabindranath Tagore, famous Indian poet and philosopher.

A series of technical films was presented at the noon hour to-day as a preliminary to the opening of the conference sessions at the Royal Victoria Theatre. These moving pictures were especially prepared for the conference here and depicted "The Native Animals of Australia," and "Tyneside Industries." The order of these films will be reversed for the showing at the lunch-hour of the following day.

Mayor Herbert Ansonb presided at the 2:30 o'clock session this afternoon at the Royal Victoria Theatre when Toyokichi Fukuma, Imperial Japanese Consul for British Columbia, introduced the exhibition of a Japanese Government film illustrating the physical training of Japanese girls.

Other films loaned by the Japanese Government and illustrating the development of physical training of the youth of Japan, Mr. Fukuma explained, will reach Victoria to-morrow by the liner Empress of Asia from Yokohama. These films will be shown at the Vancouver conference next week.

U.S. SENDING DESTROYER TO MEXICO

Secretary of State Declares U.S. Citizens in Sinaloa State Need Protection

Washington, April 5.—Secretary of State Stimson took energetic action to-day to protect United States citizens in the State of Sinaloa, Mexico, by requesting the Navy Department to send a destroyer to the port of Topolampito.

The continued lack of bombs from Mexican rebel aeroplanes into Naco, Arizona, also caused Secretary Stimson to-day to ask the Secretary of War to have another warning conveyed to the rebel leaders in the State of Sonora against endangering lives of United States citizens there and to have the United States military commander at Naco see the warning is effective.

4,000 MENINGITIS CASES IN SHANGHAI

Shanghai, April 5.—Health authorities to-day estimated there were 4,000 cases of meningitis in the Chinese capital. The epidemic is continuing.

POET'S ST. JOHN ARRIVES TO PAVE WAY FOR TAGORE

Best Loved Englishman in India Here to Meet Mystic Master

SIR RABINDRANATH TAGORE

Rev. C. F. Andrews, who has been the companion of the poet, Sir Rabindranath Tagore, for nearly twenty years, arrived in Victoria this morning. When interviewed by The Times, he stated that he had been summoned by Sir Rabindranath by cable when he was in the United States. The poet wished him to attend the education conference here and help him in it as his companion.

Mr. Andrews said that the poet Tagore was tall in stature and usually wore his long flowing eastern robe. His voice was a deep, clear, and really carried over a big audience.

When asked about Tagore's personal appearance, Mr. Andrews said that his portraits would show that his hair and beard were now turned completely white and his face was one of extraordinary beauty. His voice also had a sweetness about it, which made his speaking of deep interest to listeners.

"In India," said Mr. Andrews, "he is known and loved as the greatest poet of Asia. His father was one of the greatest religious mystics that India ever had, and his name was called by universal consent 'Maharshi,' which means Great Saint. Tagore has inherited this mystical quality from his father."

Mr. Andrews said he had noticed in the newspapers that Tagore's age had been given as eighty years, but this was an error. He would be sixty-nine years old this year, his birthday coming on May 6.

Kootenay Ranch Owner Missing

Nelson, B.C., April 5.—Thomas Midgley, pioneer Kootenay resident, is missing from his ranch home on Kootenay Flats, six miles from Kootenay Landing. A search has been carried on for three days without success. Provincial police of Creston are handling the case, and little word has come through to Nelson.

It is stated Mr. Midgley's bed had been left in and his clothes were as he had left them, but the bedding was covered with blood. Two blankets from the bed are missing. He was first missed when Mrs. Midgley, who had been visiting relatives in trail, returned to her home Tuesday at noon. The Midgley ranch is on an isolated spot on the Flats.

GOV.-GENERAL HERE TO OPEN CONFERENCE

Lord and Lady Willingdon Officially Welcomed at Dock This Morning

They Will Be Guests at Government House Until Sunday Night

Lord Willingdon, Governor-General of Canada, and Lady Willingdon arrived in Victoria to-day for the opening of the International Conference of the National Council of Education.

Their Excellencies, who crossed from Vancouver on the regular night boat, were welcomed at the C.P.R. dock at 9:45 o'clock here by Lieutenant-Governor Randolph Bruce, Miss MacKenzie and A. M. D. Fairbairn, and the Lieutenant-Governor's two aides, Major Selden Humphries and Capt. Hobart Molson.

Also in the welcoming party were Hon. R. H. Pooley, Acting Premier of B.C., Brigadier Sutherland Brown, O.C. of Military District No. 11, and Capt. F. Gillman from Work Point. Commander Murray, senior naval officer from Esquimalt, and Mayor Ansonb, Lord and Lady Willingdon were taken to Government House, where they will be guests until Sunday night, when they sail from here for the West Coast trip on the Princess Nora.

This morning they spent walking around the Government House grounds. Lady Willingdon is known from one end of Canada to the other as a keen gardener, botanist and flower collector, and no sooner had she reached Government House this morning than she was out in the gardens to see what spring flowers were flourishing here and to seek out new specimens.

There is no heavy programme at Government House for the visiting visitors. To-night there will be a dinner, at which some of the delegates to the conference will be guests and to-morrow the Governor-General will prepare his opening address at the Royal Victoria Theatre at night.

N. F. LEOPOLD OF CHICAGO DIES

Father of Young Man Serving Life Prison Term Succumbs After Operation

Chicago, April 5.—Nathan F. Leopold Sr., father of the boy who was sentenced with Richard Loeb to a life term in the Joliet penitentiary for the "thrill" murder of Bobby Franks, died last night in a hospital here. He had undergone a major operation ten days ago. He was sixty-nine years old.

Mr. Leopold was a wealthy Great Lakes transportation man.

He was the last of three fathers bowed under the tragedy of the Bobby Franks kidnapping.

A. H. Loeb, father of Richard Loeb, died October 2, 1924.

All three men were prominent in Chicago life up to the time Bobby Franks was kidnapped and killed by "Dickie" Loeb and Nathan F. Leopold Jr. All lived in secluded homes. Franks was the first to die.

Chicago, April 5.—Because George P. Scollard of Mill Bay, V.I., had launched an appeal to the British Columbia Court of Appeal from an order of Mr. Justice Murphy for his arrest on writ of capias at the suit of H. G. Thompson, attorney-at-law of Bellingham, who claims \$19,408, Mr. Justice W. A. Macdonald in the British Columbia Supreme Court here to-day refused to set aside the order.

An application on Scollard's behalf by Stuart Henderson to have the capias order vacated was met with the preliminary objection of Thompson's counsel that the matter had been removed by Scollard's notice of appeal into the Court of Appeal.

Although Mr. Henderson offered to abandon the appeal, the judge stated he would not hear the application until the withdrawal had been perfected.

Bruce Duncan, counsel for A. deB. McPhillips for Thompson, offered to facilitate a release of the appeal at the present sitting of the Court of Appeal.

Refusal of Scollard to provide security for the claim, which is on a Washington State judgment, resulted in him remaining in custody.

When France Paid Tribute At Tomb of Foch

The picture above is the first of the Foch funeral in Paris to reach Victoria. It shows the body of the Marshal lying in state under the Arc de Triomphe as the long line of citizens filed by. More than a million people sought thus to pay tribute, but only about 200,000 succeeded, as they could pass only at the rate of 8,000 an hour. On its journey to Victoria the picture came part of the way by telephoto.

Double Tragedy At Sooke Revealed By Upturned Rowboat

Mrs. F. R. Begg Of Vancouver Rescued As Home Is Burned

Vancouver, April 5.—Mrs. Frank R. Begg, wife of the well-known Vancouver automobile dealer, narrowly escaped asphyxiation by smoke at 11 a.m. to-day when fire broke out in the roof of the Begg residence on Tecumseh Avenue. While flames swept the upper section of the house, Mrs. Begg, confined to her bed through illness, was carried from her room on the second floor by firemen and neighbors. She is reported to have suffered no ill-effects from her experience.

Lloyd Begg, small son of the auto dealer, played a prominent part in the rescue of his mother. Keeping cool while the servants in the house, were in a state of excitement, he sounded the alarm which brought the fire-fighters to the scene and directed them to Mrs. Begg's room.

The loss is estimated roughly at \$10,000.

A search by Sooke fishermen, assisted by Constable Richard Meadows of the provincial police, continued this morning, and the body of Mr. Sims was found about 8 o'clock.

WALL FALLS AND KILLS FIVE MEN

Plymouth, Eng., April 5.—Five men were instantly killed here to-day when a wall alongside a trench in which they were laying an electric cable collapsed and buried them under twenty-five tons of stone. A sixth man died later in a hospital.

The accident occurred just as the noon whistle was about to sound for the period of luncheon and rest.

OFTEN GO TOGETHER.

King's Third Son To Visit Coast Of B.C. In June

London, April 5. (Canadian Press Cable)—The Duke of Gloucester, third son of King George and Queen Mary, has decided to travel through Canada on his way back to London from Tokyo and is expected to pass through Victoria and Vancouver about the first of June.

It is not yet known how extensive his tour of the Dominion will be, but it is expected he will visit the various provinces of the Dominion.

According to The London Morning Post, will be purely private and, apart from a few invitations, no public engagements will be made.

VICTORIANS MAY SOON SEE TWO PACIFIC PLANES

Mrs. Louise McPhetridge Thaden Says She Hopes to Fly With Three Companions From Seattle to Tokio; H. Bromley's Tacoma-Tokio Plan Announced Earlier This Week.

Closely following on the announcement that Lieut. Harold Bromley, former Victorian, was planning an attempt to make a non-stop aeroplane flight from Tacoma to Tokio as soon as his plane could be completed and tuned up and the other necessary preparations made, comes the statement that in addition to seeing his plane pass this way, Victorians may this summer see a plane carrying Mrs. Louise McPhetridge Thaden, one of the most famous aviatrixes of the United States, a co-pilot, a navigator and a radio operator start on a flight which it is hoped will take them from Seattle to Tokio without a stop.

PAINTERS BACK AT WORK WITH WAGE INCREASE

Employers Sign Agreement and Strike Ends; Work Is Resumed

The painters' and decorators' strike, which has been on for the last ten days, ending with the completion of a number of building projects, ended shortly after 8 o'clock this morning when a working agreement was signed by the employers and officers of the men's organization.

Announcement of the ending of the strike was made at a meeting at the Labor Hall by James Holman, president of the Local No. 1119.

The new agreement calls for a wage scale of eighty-five cents an hour beginning May 1. This is an increase of ten cents an hour over the old scale. For the employers the agreement was signed by Alfred Tripp as president, W. H. Harter, John W. Harkness and A. McAlhany. For the employees the agreement was signed by James Holman as president, James Bradshaw as financial secretary, John E. Whittle as secretary and William H. Rivers as vice-president.

President Holman said that everyone was glad the strike was over as it has held up the completion of essential work such as that at St. Joseph's Hospital. He announced that a post-strike meeting of all painters and decorators would be held at 8 o'clock next Wednesday night. Most of the 120 men who have been out on strike were back at work by 9 o'clock this morning.

PLANES HUNT LOST FLIERS

Believed Australian Aviators Landed Within Fifty Miles of Mission Station

Sydney, Aus., April 5.—Capt. Charles Kingsford-Smith and his three companions, forced down somewhere in the wilderness of Northwestern Australia last Sunday on the first lap of an aeroplane flight to England, probably landed within fifty miles of the Drysdale Mission station.

This is now the belief of the committee in charge of the search, which has instructed Captain Chateau, an aviator at the nearby town of Wyndham, to relay his search in the Drysdale River area in co-operation with a plane chartered by The Sydney Daily Sun.

The Drysdale Mission to-day definitely timed the passage of an aeroplane which was almost certainly the Southern Cross at 11 a.m. Sunday morning. The plane, chartered by The Sun received this confirmation.

The plane then proceeded to the Mitchell River area and zigzagged back and forth along the seacoast to a distance of thirty miles inland without sighting the lost fliers.

Cardinal Gasquet Died To-day in Rome

Rome, April 5.—Cardinal Gasquet, archbishop of the library of the Holy Roman Church, who was created a cardinal in 1914, died here to-day. He was born in London October 5, 1846. He was the author of a number of books, most of them historical.

Cardinal Gasquet was a member of the committee which drafted the constitution of the League of Nations.

He was a member of the committee which drafted the constitution of the League of Nations.

AT THE THEATRES

UNIFORM MIX-UP MAKES PLOT FOR PLAYHOUSE FILM
The House of Scandal, the Tiffany-Stahl feature bringing Dorothy Sebastian, Pat O'Malley, Harry Murray and a fine cast to the Playhouse Theatre to-day, tells the story of a young Irishman who gets mistaken for a policeman while wearing his brother's uniform, falls in love with an angel to him and gets himself, his brother and the girl into all sorts of exciting entanglements before the story reaches a happy ending.

FINE STAGE SHOW ATTRACTION HERE AT THE COLISEUM
With a specially selected play entitled "The Balloon Girl," the Coliseum Players under the direction of Raymond "Toby" Letch, are appearing all this week at the Coliseum Theatre where they are pleasing record audiences. There will be three stage performances to-morrow, one in the afternoon and two in the evening. The matinee is timed to commence at 1:30 o'clock, while the players will take the stage in the evening at 7:30 o'clock and again at 10 o'clock.

DASHING RIDING STUNTS FEATURE OF "OUTLAWED"
Presenting Tom Mix popular star of the screen, in a whirlwind picture that compresses within its length more speedy action, gripping suspense and climatic dramatic development than any half-dozen average films. "Outlawed" is at the Columbia Theatre to-day.
Dashing riding stunts in which the star's famous horse, Tony, distinguishes himself anew, athletic feats in connection with his enemies and powerful dramatic moments in the development of the absorbing story keep Mix in the forefront of the film's action.
Sally Blane, one of the beauties of filmdom who is rapidly achieving distinction as a leading woman, is seen in the principal feminine role opposite Mix.
Director Eugene Forde, who has been associated with the western star in a similar capacity on several former pictures to be complimented upon his forceful and convincing depiction of the narrative.
In the capable cast are included Barney Purey, Ethan Laidlaw, Al Smith and Al Ferguson, all seasoned "western" players who handle their roles most acceptably.

You have everything to gain and nothing to lose by trying "Sootha-Salva." This new ointment enables you to get quick relief from the itching, burning, swelling—and to get rid of Piles for good. It has been successfully tested in thousands of cases. 50c at all druggists.
It costs you nothing if you do not benefit. After using two boxes of "Sootha-Salva," if you are not satisfied, just return the empty tin to Fruit-A-Dive Limited, Ottawa, Ont., and we will refund your money. (Advt.)

COMEDY TRIO IS CREATING LAUGHS AT THE DOMINION

The day of the comedy team on the screen will probably give way to the comedy trio as a result of the work of William Haines, Karl Dane and Tully Marshall in Metro-Goldwyn-Mayer's "Alias Jimmy Valentine," which is now playing at the Dominion Theatre.
These three veteran actors have, with the co-operation of Director Jack Conway, prepared a laugh fest of their own particular kind of humor that has a flavor all its own.
Haines plays the role of the slick, good-looking young safe cracker, who upsells the police departments of half a dozen cities and laughs at their efforts to convict him of any crime. As companions in wrongdoing he has Dane and Marshall. The latter plays the role of an "old-timer" in crime, a crabbed, weary-eyed man who can never see anything funny in anything. Dane plays the role of the dumb "lookout" man who is always getting the trio into mix-ups where only the skill of Haines and the experienced sagacity of Marshall can extricate them.

COE IS AUTHOR OF PICTURE NOW AT THE CAPITOL

There are so many good points about "Blindfold," which opened last night at the Capitol Theatre, that it's hard to begin a review.
First, the story is by that excellent teller of contemporary crime stories, Charles Francis Coe, who wrote "Me,

Gangster," "The River Pirate" and others.
Second, Charles Klein, a German director comparatively new to the United States, used many bits of ingenious technique when he produced the picture for Fox.
Third, the cast reads like Hollywood's bluebook. Lois Moran, who came to public attention in "Stella Dallas" and has been rising ever since, heads the list. George O'Brien, of "Sunrise" fame, appears opposite.
Others are Earle Foxe, Maria Alba, Don Terry and Fritz Feld. In chief character roles will be found Crauford Kent, Robert Homans, John Kelly and Andy Clyde.
A new camera angle will make this picture outstanding. Klein, the director, is a cameraman also, gives in the picture, a visual interpretation of mental action that is highly effective.

Is Your Child Thin and Weak?

McCoy's Tablets Puts on Flesh and Builds Them Up
In just a few days—quicker than you ever dreamt of—these wonderful health building, flesh-creating tablets called McCoy's Cod Liver Extract Tablets will start to help any thin, underweight little one.
After sickness and when the children are exceedingly puny they are especially valuable.
All over North and South America and even in Great Britain and Australia tens of thousands of skinny run-down men and women have put their faith in McCoy's—and have not been disappointed.
Try these wonderful tablets for thirty days and if your frail, sickly child doesn't greatly benefit you get your money back.
Ask MacFarlane Drug Co., Vancouver Drug Co., or any druggist for a box of McCoy's Cod Liver Extract Tablets—as easy to take as candy and so tablets, 60 cents—Economy Size \$1.00. (Advt.)

CHINESE MISSION EASTER CONCERT

Many Enjoy Beautiful Pageant Given For Orientals Here

The Easter entertainment given Tuesday evening at the Chinese Mission of the United Church with Dr. E. B. Gung in the chair was rich in color and lasting in impression upon the audience which filled the church to its utmost capacity.
Tiny tots recited perfectly, and wee girls attired as Spring flowers, violets, daffodils and lilies presented a pageant of beauty in which the Heavenly Father's love and care were extolled.
Young men and girls in their groups sang choruses, and displayed tableaux illustrating Easter lessons. The final scene was portrayed by white-robed young ladies drawn up in a triangle looking towards a white cross draped with lilies while a voice from behind the scene sang the three verses of the song beginning "In the Cross of Christ I Glory, Towering O'er the Wrecks of Time."

PERFECT FREEDOM IS IMPRACTICABLE

Prof. H. F. Angus Shows Obstacles in Path of Liberty to Extension Association

If the individual considered freedom the complete absence of external restraint, such a state will never be realized, said Professor H. F. Angus of the University of British Columbia, in his lecture on "Political Freedom" before the University Extension Association at its final gathering for the season at Victoria College last night.
That there was always some petty interference, such as conventionalities and restraints imposed by environment, in everyone's life, was also illustrated. Moreover, Professor Angus pointed out the fact that every extension of one person's freedom diminished that of others.
The lecturer did not place much value on the equality of liberty among people, since he thought that if each person in the state was given as much freedom as his fellows there would be a number of cases in which those incompetent to use freedom would be depriving others of an amount which they were competent to utilize.
When treating the subject of personal liberty and its place in the state, Prof. Angus declared the individual was to be somewhat as the cell was to the physical organism; if the state was to operate efficiently, there would necessarily be an interference in the liberty of the individual. Since all people more or less accepted the relationship between the citizen and the state, it was their duty to conduct themselves in accordance with the laws of the state to the detriment of their personal liberty.
To justify this interference by the state in the individual's business, the lecturer stated that many people were willing to submit to intrusions against their personal freedom in order to

make legislation expedient. In many cases it would be far more difficult to protest actively against the dictates of the state than to accept its decrees, he added.

INTERFERENCE JUSTIFIABLE
Political interference was justifiable to a certain extent, since it frequently was the means of eliminating great evils, the lecturer said. To illustrate this, Prof. Angus pointed to the arbitrary acts passed by states to prevent war.
While speaking on dictatorships, the lecturer stated that that form of government suppressed personal liberty but made possible the expedient achievement of great things.
On behalf of the association, Arthur B. Sanders, president, thanked the lecturer for his interesting address.

A free municipal school of bee-keeping has been established in Buenos Ayres, Argentina.
Administration of the Schick test for diphtheria and the Dick test for scarlet fever is compulsory for all pupils between certain ages in Government schools of Mexico.

YOUR FALSE TEETH CLEANED EITHER WAY

A choice of two methods—but it must be Milton. For what else can kill germs and remove all the stains and little bits of food? Milton does this, and more—actually polishes the teeth, burnishes the gold parts and takes off 'film.' And not the slightest harm to the denture—your dentist will confirm this. All dealers sell Milton—at 35¢, 65¢ or \$1 a bottle.

U.S. SENATORS DISCUSS POOLS

Washington, April 5.—Not only has the Canadian Wheat Pool been of distinct advantage to the wheat farmers of Canada and tended to increase the prices they have obtained for their products, but it has had an influence on the whole wheat market, according to A. J. McPhail, president of the central selling agency of the great three Canadian grain pools, who discussed the subject before the United States Senate committee on agriculture yesterday.

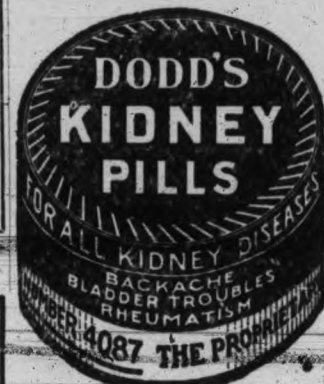

Mr. McPhail came here at the request of the committee to give the Senators the benefit of the experience of Canadian farmers in co-operative marketing, which is one of the main planks in the proposed new farm policy in the United States. Most of the men Mr. McPhail addressed have advocated a system whereby the United States Government would be responsible for the marketing of the surplus United States wheat crops.

The Senators stopped the casual questioning which is their usual method and listened with keen interest while the Canadian marketing expert declared the farmers could handle their own business better and gained greater knowledge of their affairs by being left to work out their own business destinies.

WORLD MARKET

Not the least interesting phase of the hearing was the suggestion that this country and Canada, by co-operating with respect to the marketing of exportable wheat, could control the world market to a still greater degree than it has already been influenced by the Canadian Pool.

Senator Brookhart of Iowa asked a series of questions of Mr. McPhail on this point. While Mr. McPhail made no commitment on the policy of such co-operation, he indicated the Canadian Pool, working with some similar organization in this country, could have an influence on world wheat marketing.

FISH TAGGING WORK SUCCESS

U.S. Canadian Conference at
Vancouver Told of Nanaimo
Efforts

Vancouver, April 5.—The tagging experiments of the Pacific Coast biological station at Nanaimo are the most extensive and complete yet made on the coast. It was stated by United States delegates at the first session of the fourth meeting of the International Salmon Investigation Federation here today.

With the approval of the United States and Canadian Governments, experts on fish are considering the recent advances in the study of the habits of the salmon. Latest information gathered by the state officials of Washington, Oregon and California is being exchanged with the experts of the Department of Marine and Fisheries of Canada. Henry O'Malley, commissioner of the United States bureau of fisheries, presided over the opening session.

TRAVELS TRACED.
The travelogue of the spawning salmon as revealed by Dr. W. A. Clemens of the biological station was the principal paper of this forenoon's session. He analyzed the labors of his experts in tagging salmon for the last three years and stated that in the next two or three years far more complete data would be available.

From the data now available Dr. Clemens stated experiments at Uclulet on the West Coast of Vancouver Island, showed that on a basis of from ten to twelve per cent returns, sixty per cent of the salmon which move in those Canadian waters eventually return to the mouth of the Columbia River. On the east coast of Vancouver Island, however, the tagging tended to show these salmon came to the Fraser River. He pointed out, however, that some of the salmon tagged at the Nanaimo and Quatsino Stations had traveled as far south as the Columbia and may have journeyed in the course of their wanderings around the north end of Vancouver Island.

A curious trait of the salmon as revealed by brief experiments at one or two points seemed to indicate fish milled back and forth at the mouth of a stream before proceeding to the spawning grounds. These experiments, he said, however, were inconclusive.

TACOMA REGION HAS SNOWFALL

Seattle, April 5.—Freakish weather held sway to-day over the State of Washington as a winter made a determined last stand against the advance of Spring. Unusually cold weather for the season and snow were reported from widely separated sections, accompanied in most places by cutting winds.

The Tacoma district was shivering under the heaviest Spring snowfall within the memory of the oldest residents. The snow varying in depth from two to fourteen and a half inches. A snowstorm of near blizzard proportions swept over the Yakima Valley in eastern Washington and although the snow melted almost as fast as it fell, for a while the ground gradually turned white as the temperature fell. A heavy snowfall was reported at the summit of Snoqualmie Pass, which has been open to automobile traffic for several weeks.

Walla Walla and Ellensburg were in the path of the cold wave in eastern Washington, but Wenatchee was enjoying its first relief in several weeks from a cold breeze.

Bellingham was under a blanket of snow—two inches deep and experiencing freezing temperatures, while areas outside the city were covered with six inches of snow. The snowfall in Seattle was scarcely notable while at Aberdeen, on Grays Harbor, there was neither rain nor snow, although the temperature was low.

Barclay Case Before Vancouver Grand Jury

Vancouver, April 5.—Whether Denis William Barclay was sane or insane did not concern the grand jury. Mr. Justice Gregory said in the case today when presenting the indictment which charges Barclay with the murder of Miss Pearl Baguley on February 11.

Eleven prosecution witnesses had been notified to attend before the grand jury in the case.

"It is quite possible the question of the mind may come up," said the judge to the grand jury. "You have nothing to do with that. That can come up again when it is decided what to do about it. There is a true bill. Govern yourselves entirely by the evidence before you."

Man Released By Mexican Bandits Once Lived in B.C.

Nelson, April 5.—John Wilmot Reid, reported released by Mexican bandits, a former Kootenay resident who was interested in the mining industry in the Slokan district.

He was popular and well known at Slokan points, where he resided for a period of about twenty years. He married about twelve years ago in Vancouver to Miss T. Boyd, who had taught school at Sandon, B.C., and who was a daughter of Mr. and Mrs. George Boyd of Kistilano.

Mrs. Reid and her two boys visited Nelson two years ago on her way to join her husband in Mexico. City.

Mr. Reid is about forty-five years of age and came originally from Scotland.

Winnipeg, April 5.—Henry B. Hanson, a United States mining engineer, released yesterday along with a companion, J. W. Reid, by Mexican bandits after a month in captivity in mountains of the State of Durango, is well-known in Manitoba mining circles.

Mr. Hanson lived here about three years ago and he supervised the construction of the mill at the Central Manitoba Mines and other properties in the province's metal area.

The Mission and Bible School invites the religious public to attend a course of lectures on the "Last Things," which should be of special interest.

1,200 BRITISH CHURCH PEOPLE TO VISIT CANADA

London, April 5.—(By George Hambleton, Staff Correspondent of the Canadian Press)—Twelve hundred British church people, including Presbyterians and Methodists will journey to Canada in June to secure first-hand knowledge of the results of union between the similar "three denominations" in Canada. The party will sail from Liverpool aboard the steamship Doris, May 31, the vessel having been recently chartered.

The tour will include Quebec City, Montreal, Ottawa, Toronto, Hamilton and Niagara Falls and the visit is being timed to synchronize with the fourth anniversary meetings at Toronto of the United Church of Canada.

MANITOBA IS FACING DEFICIT

Premier Bracken Outlines
Budget Plans For Year Ending
April 30, 1929

Winnipeg, April 5.—Manitoba is facing a deficit of \$1,200,000, Premier Bracken announced today in his budget speech in the Legislature.

Estimated expenditures for the fiscal year ending April 30, 1929, by nearly \$1,000,000, the actual figure being \$983,926.20. He estimated the province during the coming year, would spend \$1,374,671.1. The estimated figure for the year just closing was \$1,274,745.

ALL BRANCHES COST MORE.
With the expenditures for the coming year estimated at \$1,374,671.16 and the revenue at \$1,274,671.16, the province faces an estimated deficit of \$99,999.99.

The increased expenditures for the most part were due, said Mr. Bracken, to higher educational grants, highways, health and public welfare services. There had been some increase in revenues, but it had not kept pace with the increase in the expenditures.

CONFERENCE ON EDUCATION OPENS

(Continued from page 1)

PHYSICAL TRAINING.
The entire afternoon is devoted to physical training. "Education for Health" was the subject presented this afternoon by Robert Jarman, British expert and director of physical instruction for Leeds City. Mr. Jarman's address was illustrated by specially selected groups of boys and girls from the Victoria schools in physical training and folk dancing displays. Folk dancing is Mr. Jarman's specialty in health training methods, and this branch of the work was featured.

EVENING PROGRAMME.
The evening programme to-day will commence at 8:15 p.m. and will be presided over by Dr. L. S. Klink, president of the University of British Columbia.

The indications are that the theatre will be crowded to hear the address on "Education in India" by Dr. Rushbrook Williams, who is one of the most noted educational authorities in the East.

He brings a message from India that will rival in interest that of Sir Rabindranath Tagore.

Preliminary to the address to-night by Dr. Rushbrook Williams, Campbell McInnis will give a short address on "Music and Leisure."

REGISTRATIONS HEAVY

Registrations for the conference, Major Fred J. Ney, organizing secretary, announced, will exceed 650. The revised list of delegates, apart from the British Columbia list, is as follows:

Great Britain—Sir Aubrey and Lady Symonds, H. M. Richards, J. C. Stuart, Sir Charles Grant Robertson, Ernest Raymond, Professor Winifred C. Cullis, Major R. Jarman.

Australia—L. B. Franklin, T. J. Greenway, S. H. Smith, Miss Buring, Sir Archibald Strong, Mr. and Mrs. George Jeffrey, Dr. A. A. London, Alec Melrose, Miss Audrey Homberg.

Canada—Mr. and Mrs. L. Kempff and Dr. Ludwig Mueller.

Japan—T. Kawasaki and T. Fukuma.

Canada—C. C. Carrothers, London, Ont.; Hon. Henry Cockshutt, president of the Council of Education, representative of University of Toronto; Professor G. M. Wrong, University of Toronto; W. J. Dunlop, Department of Education, Toronto; Mrs. Dunlop, Milne Blackstone, director of Hart House Quartette; Dr. A. M. Scott, superintendent of schools, Calgary; Dr. G. W. Kerby, principal of Mount Royal College, Calgary; Professor Carleton Stanfield, McGill University; Mrs. A. M. Plumptre, Board of Education for city of Toronto; Dr. A. S. Lamb, McGill University, Montreal; Miss C. Hendry, secretary of local committee of National Council of Education, Hamilton, Ont.; C. W. Rowley, Toronto; Dr. A. H. Hall, Deputy Minister of Education for Saskatchewan; Mr. and Mrs. Pinckney, Winnipeg School Board; Dr. Elvyn Read, South Quebec; Miss B. M. Stodart, Mrs. Dudley Smith, Hamilton; Hon. Fernin Baker, Minister of Education for Alberta; Mr. and Mrs. Strudley, Stratford; Campbell McInnis and six Canadian singers, Toronto; Harry Atkinson, superintendent of Industrial Training School, Portage la Prairie; G. D. Ralston, Normal School, Regina; J. D. Denny, superintendent of schools, Regina; G. R. Nolan, principal of Collegiate Institute, Regina; J. M. Smith, local committee of National Council of Education, Toronto; Miss M. C. Allen, Dr. J. B. MacDougall, Department of Education, Toronto; J. P. Power and Mrs. Power, Department of Education, Ontario; and Mrs. Ruthford, acting director of technical education, Ontario; Mr. and Mrs. Rogers, Department of Education for Saskatchewan; Mr. and Mrs. Green, Department of Education for Ontario;

Angus Campbell & Co. Ltd.

1008-10 GOVERNMENT STREET

Three Groups of New Spring Coats

SPECIALLY PRICED
TO-MORROW

\$16.50 \$19.75 and \$22.50

Here are three splendid groups of New Tweed Spring Coats for women and misses, tailored in the season's newest styles and fancy tweed mixtures. They are well-cut and smart-looking garments, and what could be more practical than a Spring coat of tweed! Remarkable value here to-morrow at **\$16.50, \$19.75 and \$22.50**

A Noteworthy Offering Saturday of English Blazers for Girls at \$2.95, \$3.25 and \$3.50

Many English Blazers, for girls 5 to 14 years of age. Made with two side pockets and one breast pocket. Bound with bright-colored silk cord. Priced at **\$2.95** and **\$3.25**

Scarlet English Blazers, for girls 8 to 14 years of age. Double-breasted style. Bound with white silk braid and finished with two side pockets and white pearl buttons. Special value at **\$3.50**

Two Outstanding Values in New Corselettes At \$1.25 and \$2.50

15 dozen new silk stripe Rayon Corselettes, for small and average figure. Boned down back and below waist at front; sizes 32 to 40. Saturday **\$1.25**

Corselettes for the well-developed figure, in sizes 36 to 42. Made of fancy striped material and finished with inner belt and diaphragm control. Exceptional value at **\$2.50**

500 Pairs of Kayser Full Fashioned Silk Stockings

With Square or Pointed Heels

An outstanding value in women's fine silk Hosiery for Saturday shoppers.

500 pairs of Kayser full-fashioned pure silk Hosiery in all the new Spring colors, and you may choose from square or pointed heels. Exceptional value at, per pair **\$1.50**

At
Per Pair

Sizes 8 1/2 to 10 1/2

Dozens of New Spring Hats For Girls At \$1.25 to \$3.50

Just arrived, a large shipment of new Spring Headwear for girls, offering a fine selection of popular new shapes and colors at **\$1.25 to \$3.50**

Women's Rayon Silk Pyjamas \$3.75 Per Suit

Women's fine quality Rayon Silk Pyjamas, in all the wanted dark and light colors, with trimming of contrasting shades. Special at **\$3.75**

650 Pairs of Kayser Chamoisette Gloves At 75c Per Pair

650 pairs of Kayser Novelty Chamoisette gloves, with new smart turn-back or flare cuff effects, in sizes 6 to 7 1/2. Remarkable value Saturday at, per pair **75c**

All New Spring Styles

Dean and Mrs. G. H. Ling, University of Saskatchewan; P. Leisching, office of High Commissioner for Great Britain in Canada; Rev. E. Leslie Pidgeon, Montreal; Mr. and Mrs. James Richardson, Winnipeg Board of Trade; Mr. and Mrs. J. E. S. Dunlop, Winnipeg School Board; Mrs. T. Bishop, Edmonton School Board; Mr. Roper, Edmonton School Board; Mr. Cushing, Edmonton School Board; Mr. and Mrs. W. A. Wilson, district school inspector, Port Arthur, Ont.; Mr. and Mrs. T. Miller, Moose Jaw local committee of National Council of Education; Mr. and Mrs. G. R. Annable, Moose Jaw local committee of National Council of Education; Mr. and Mrs. D. C. Clemons, Winnipeg.

DOUBLE TRAGEDY AT Sooke REVEALED BY UPTURNED ROWBOAT

(Continued from page 1)

For ten years a resident of Victoria, Mr. Sims was living with his family at 1144 Goodwin Street, Oak Bay. His untimely death is a sudden blow to his many friends and business associates, by whom he was held in high esteem.

FAMILY HERE

He is survived by the widow and two sons, Edgar R. and Horace E. and two daughters, Nellie and May, all of whom are in Victoria.

The cause of the double tragedy is a mystery. Mr. Sims and Pontious are known to have set out yesterday morning in the Wolm with that druggist everywhere are recommending.

a dolphin at Sheringham Point. The Wolm is a forty-foot gasboat used by Mr. Sims in inspection work and in construction of fish traps.

The pair had succeeded in tying the piles to the dolphin, it appears, when some trouble developed. C. F. Goodrich, secretary-treasurer of the company, suggested to-day that the towing line may have been caught in the propeller of the launch.

It is surmised that for this or some other reason Mr. Sims and the youth boarded the skiff belonging to the gasboat and that in some way this craft overturned, throwing the occupants into the heavy swell. The accident occurred about 2 o'clock, it is presumed, as the watch carried by Mr. Sims had stopped at 2:07 o'clock.

The provincial police and residents of Sooke were immediately called following the discovery of the upturned

skiff, and dragging operations resulted in the recovery of the boy's body shortly before dark last night. Search for the other body was postponed until daylight.

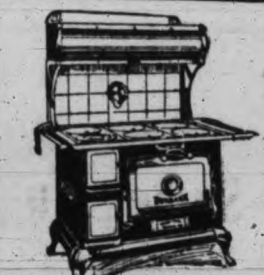

The provincial police and residents of Sooke were immediately called following the discovery of the upturned

Great For Rheumatic Pains and Swellings

When rheumatism settles in any of your joints and causes agony, distress or misery, please remember that Joint-Ease is the one remedy that brings quick and lasting relief.

It matters not how chronic or aggravated a case may be—rub on Joint-Ease and relief is sure to follow.

Joint-Ease is for joint troubles only and is a clean, harmless preparation that druggists everywhere are recommending.

BURBANK

A High Quality, Fine-appearing Range that will make you proud of your kitchen! Liberal allowance on your old range.

OUR VICE-REGAL GUESTS

VICTORIA IS ALWAYS PLEASED to receive a visit from Viscount and Viscountess Willingdon, whether they come in an official capacity, or informally, as on this occasion. Our citizens have learned with a good deal of pleasure that the Governor-General and his charming consort are especially attracted to Vancouver Island. Their Excellencies will not expect us to be surprised that this should be so, for we are modestly proud of the advantages Nature has given to us.

Since he entered upon his duties at Rideau Hall, Viscount Willingdon has acquired a very intimate knowledge of Canada and the Canadian people, and he now feels entitled to call himself a good Canadian. This is how the Canadian people want him to feel. He will be in the country for only a comparatively short time and the more he knows about it the better he will be able to expound Canadianism when he shall leave us for another sphere of activity.

The presence of Their Excellencies in Victoria at the present time is an impressive reminder of their interest in education. They have come out from Ottawa especially to be present at the gatherings of the National Council of Education. Among the many distinguished delegates from ten nations they doubtless will renew acquaintance with many whom they have met in other parts of the world. They also will form new associations. Hence, we may be sure that Their Excellencies will derive much pleasure and profit from their visit.

THE VETERAN AND FUTURE WARS

DOES THE VETERAN OF THE last war look with favor on the possibility of another great conflict? This is a question which is often asked. The answer, if the statements of veteran organizations are to be believed, is a very decided negative.

Only recently the Ontario Provincial Command of the Canadian Legion passed a striking resolution which reaffirmed "in the name of God and fallen comrades" that permanent peace was their major aim and objective; and they called on all branches to subscribe to the same doctrine.

The Ontario Command further stated that it was behind the policy of goodwill between nations—as established through the efforts of the League of Nations, the Locarno Conference and the Pact of Paris. The memorial closes with these significant words: "In advancing this doctrine we propose to re-enlist the manhood of the nation represented by our veterans in the nobler programme of constructive citizenship and thus ensure the effective permanence of the Empire Service League."

These service men and thousands of others in all parts of the world believe that if all the ex-service men of the best type were banded together, standing behind the statesmen, a way would be found to meet the first waves of discord and bring continuous peace between the nations.

The standpoint of Canada's veterans is but another indication of the truth that the finest soldier is always an advocate of peace. These men are determined that their children and their children's children shall never face the horrors, filth and misery that were their lot in those terrible years from 1914 to 1918.

IT PAYS TO ADVERTISE

APPLE GROWERS IN THE STATE of Washington last year spent \$50,000 in advertising their products. They have just decided to double the amount this year because last year's results justify the additional outlay. Nor is \$100,000 a very large sum to help the disposal of a harvest worth at least \$40,000,000.

It is common knowledge that the Washington apple growers pay a great deal of attention to the grading and the packing of their fruit. We do not know whether their methods are better than those employed in British Columbia. We do know, however, that the fruit of the Okanagan Valley—where climatic and other conditions are similar to those obtaining in the Yakima and Wenatchee districts of the neighboring state—is every bit as good in quality as the Washington fruit. In fact, the Okanagan should have the advantage, since about one-third of the crop is composed of McIntosh Reds—superior to anything produced just across the border, where few of this variety are grown.

Are British Columbia growers advertising their apples effectively? Could their marketing methods be improved so as, partly at least, to overcome the handicap which the present scale of railway freight rates imposes? These questions are worth considering, for it will be recalled that we recently drew attention to the fact that a British steamer had called at Portland to collect six thousand boxes of Hood River apples, consigned to Hull, England. This involved an extra handling charge of more than \$600.

We are living in an advertising age and, if our apple growers are to market their products in other countries, as our neighbors are doing to a considerable extent in Great Britain, the consumers will have to be told all about them by the printed word.

MUSIC AND ORDER

WHEN HE WAS IN SEATTLE recently Mr. Glenn H. Woods, director of music in the public schools of Oakland, departed a little from the aesthetic realm in which his duties more or less confine him, to moralize on the problem of maintaining law and order. His theory is that the United States needs more bandmen and fewer policemen. Mr. Woods very naturally did not expect to be taken literally; we presume he was speculating upon the mental reaction to good music. His enthusiasm for his prescription, for instance, would not lead him to the belief that "Scarface" Al Capone or "Bugs" Moran would immediately succumb to the strains of "The Blue Danube" and mend their ways; but there is more in his remark than at first may seem apparent.

It must be admitted that the development of the finer instincts, especially during the formative periods, would do much to counteract the need for the many forms of correction which now appear to be necessary all over the world. The citizens of to-morrow are the school children of to-day. Not all possess the mental equipment suitable for the career of an expert vocalist or instrumentalist; but there are few who do not possess some semblance of an artistic temperament which with proper direction might expand into a thorough understanding and appreciation of music and all its implications, the music of life as it applies to clean living and good citizenship generally.

Victoria is fortunate in its cultural atmosphere in this respect. The annual musical festival demonstrates that this branch of the fine arts has an irresistible appeal. It is good to see. Little can be wrong at heart with a community which so enthusiastically manifests its appreciation of good music. It may not be too much to claim that the orderly conduct of our people as a whole is traceable to a considerable extent to the influence upon their minds which musical activities have had in this city for many years.

THEY WON'T HAVE IT

IT MUST BE RATHER DIFFICULT for Hon. R. B. Bennett to sit in the House of Commons and listen to farmer members from the prairies declaring, as Mr. Bancroft of Selkirk declared yesterday, that a tariff alleged to protect the interest of the farmer was, in fact, highly detrimental to the economic progress of the nation. In the case of the United States, Mr. Bancroft reminded the House, such a tariff had meant bankruptcy for hundreds of Middle-Western agriculturists.

Mr. Bennett and his first lieutenant, Mr. Guthrie, have been telling the country that the King Government has been neglecting the interests of the Canadian farmer, that his lot never would improve until he could sell more of his goods in the home market and be protected against the inflow of agricultural products from the United States. But the Canadian farmer will have none of it.

Neither Mr. Bennett nor Mr. Guthrie, however, tells us why the United States farmer, who has been protected forty-three cents a bushel on wheat, twelve cents a pound on butter, twenty cents a gallon on cream, eight cents a dozen on eggs, is poorer than the Canadian farmer, more discouraged and less able to help himself. In this regard, incidentally, we have the following pointed remarks from Miss Agnes Macphail:

It is the farmer and not low or high tariff, or even free trade, that interests me. If I could see how tariff would help the farmer when he is an exporter I would be willing to try it. Should agriculture ask for protection, how can we then refuse higher and yet higher protection to the manufacturers? Suppose we got a cent or so more for what we sold, which is unlikely, but paid out five or ten cents more for what we bought, how much ahead would we be?

The Fordney-McCumber tariff was to make the farmers of the United States rich. We have only to recall the attitude of the agrarian states during the period of the presidential nominating conventions last year to know it did nothing of the kind. The farmers were saying ugly things. They have been promised more protection. But we shall hazard the guess that they will not be any better off if they get it—which is extremely doubtful, since competent observers are persuaded that it is not the right remedy for the plight in which the rural industry now finds itself.

NOTE AND COMMENT

Not for a very long time has Victoria been honored by the presence of so many distinguished visitors from so many countries as are honoring the city this week-end, delegates to the sessions of the National Council of Education representing no fewer than ten nations. Victoria extends to them a hearty welcome.

A lonely Swiss farmer has literally obeyed the Scriptural injunction contained in the thirtieth verse of the fifth chapter of the Book of St. Matthew: And if thy right hand offend thee, etc. Not quite; he removed his left hand—with an axe.

Sir Austen Chamberlain has told the women voters of his own constituency of West Birmingham that the alternatives for Britain are: Conservatism or Confusion. Sir Austen is entitled to his opinion; but at this distance it begins to look as if a large number of the adult population of the country are taking a chance on the Confusion by turning quite a number who represent Conservatism out of their seats.

Two youthful bandits in Regina have been given twelve years and thirty lashes, and ten years and thirty lashes, respectively, for robbing a hat shop. Our magistrates and judges must find it unpleasant to have to mete out such harsh punishment; but it must go out to all quarters of the Dominion that this is Canada and not Chicago.

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, April 5, 1904

Tokio, April 5.—Noon reports have been received from Ping Yang to the effect that when the Japanese scouts entered Wiju on Sunday last, they found the town deserted by the Russians. The Korean residents of the town informed the scouts that the Russian forces on the upper reaches of the Yalu River consist of small detached parties.

Victoria and Vicinity—Weather Forecast—Fresh to strong southerly winds; unsettled and mild, with occasional rains.

There remain but twenty-five days more of Spring sealing season in which schooners from Victoria can, according to regulations governing the industry, continue operations on this coast. The vessels from this port are working their way well to the northward.

William Sloan of Nanaimo paid a short visit to Victoria. He arrived last evening, leaving again this morning.

There was a large attendance at the Caledonia grounds, when a football game was played between the combined Victoria and Columbia teams and the Garrison. Victoria won by the final score of 3-2.

A THOUGHT

When the unclean spirit is gone out of a man, he walketh through dry places, seeking rest, and finding none.—St. Matthew xii 43.

Men scanning the surface count the wicked happy; they see not the frightful dreams that crowd a bad man's pillow.—Tupper.

WHAT OTHER PAPERS SAY

THE CUP THAT CHEERS
The London Daily Chronicle

For some reason Great Britain alone among Western nations has popularized the use of tea. It has become the national beverage. The "tea of old England" and in its sentimental associations a "cup of tea" can vie with a "mug of ale." It is not too much to say that the British fought the war on tea.

THE RETURN TO CANADA
Le Canada

During the first eleven months of the fiscal year which terminates at the end of the present month, 31,420 Canadians who were established in the neighboring republic have returned to Canada. There is nothing to be surprised at in this return movement of our people, for we know that conditions with our neighbors are not as favorable as they wished us to believe a few years ago. It is doubtless because of the particularly difficult conditions which exist in certain parts of the United States that thousands of Canadians prefer to return to Canada and establish themselves comfortably in new and fertile territory, where industry is soon crowned with a decent competence.

SAMARITANS OF THE AIR
The Western Producer (Oskatoon)

Some of the most heroic chapters in Canadian history have been written this winter by the little band of flying men who hold their aeroplanes in readiness at the outposts of the north. It is this unexpected and unappreciated use of the commercial aeroplane, which has not only excited the pilots to dizzy heights in the hearts and imaginations of the people, but has secured for the business of aerial navigation a solid friendship which must continue to grow with the passage of time. There is being built up a new Canadian flying tradition comparable on more than even terms to the British tradition of the sea or the record of the old Mounted Police.

WORLD PEACE
The World Peace Overseas (London)

Field-Marshal Sir William Robertson, who was Chief of the Imperial General Staff from 1915 till early in 1918, and who is popularly referred to as "Bull" and was the chief speaker at a Peace Conference held in connection with the League of Nations Union the other day in St. James's Square. He said that in the event of another war the loss of life and waste of wealth would exceed by many times that of 1914 to 1918, and the horrors which would be suffered by the civil population from air attacks, combined with the use of new chemical substances, would seem to be almost limitless. "It was only by the intrusion of a more generous, frank and trustful spirit into the conduct of international affairs that the world would be saved from drifting into another war," said Sir William.

The WEATHER

Daily Bulletin Furnished by
the Victoria Meteorological
Department.

Victoria, April 5—3 a.m.—A pronounced cold wave is being blown over this Province and rain has extended to California. Snow and colder weather is reported in the prairies.

Reports:
Victoria—Barometer, 29.74; temperature, maximum yesterday 46, minimum 36; wind, 12 miles N. rain, trace; weather, cloudy.
Vancouver—Barometer, 29.76; temperature, maximum yesterday 46, minimum 32; wind, calm; rain, trace; weather, cloudy.
Prince Rupert—Barometer, 30.16; temperature, maximum 40, minimum 32; wind, 4 miles N. weather, clear.
Esteron Point—Barometer, 29.78; temperature, maximum yesterday 44, minimum 28; wind, 4 miles N. snow, 2 in. weather, clear.
Tahoe—Barometer, 29.74; temperature, maximum yesterday 46, minimum 35; wind, 5 miles N. rain, 0.6; weather, clear.
Portland, Ore.—Barometer, 29.78; temperature, maximum yesterday 46, minimum 32; wind, 6 miles E. rain, 1.2; weather, clear.
Seattle—Barometer, 29.72; temperature, maximum yesterday 46, minimum 34; wind, 6 miles W. rain, 0.6; weather, moving.

BANKERS GIVE SAANICH AID IN BOND DEAL

Head Office of Bank of Montreal Gives Market Advice

"Accept Reasonable Offers" Is Recommendation Tendered Municipalities

Advised by the head office of the Bank of Montreal that any reasonable offer for bonds should not be declined, the Saanich Council last night sold an issue of \$80,000 of five per cent thirty-year waterworks extension debentures to R. P. Clark & Company Limited at a price of \$95.47 per \$100. At the last meeting the council sold a smaller issue on a 98.50 basis.

When tenders for the issue were opened, Reeve Crouch presented to the council the following telegram, received from Montreal through the co-operation of E. W. McTulien, manager of the Victoria branch of the Bank of Montreal:

NO EARLY BETTERMENT
"Speaking generally we think that, under present unsettled conditions, any municipality which requires money should not decline any reasonable proposal. The bond market is disorganized, and at present there seems to be no indication that an early return to higher price levels may be looked for."

Four bids were before the Council, Look & Co. of Toronto offered \$91, Hamilton & Son bid \$94.75, Royal Financial Corporation tendered \$95 and R. P. Clark & Company Limited were successful with \$95.47 per cent for the issue of \$80,000.

The council considered rejection of all bids and calling new tenders in three months, but unanimously supported immediate acceptance when informed that Vancouver only received \$92.50 for the recent large issue of \$60,000 of waterworks debentures.

The price accepted will yield investors an emergency rate of 4.5 per cent. It will cost Saanich a discount of \$3,624 from the face value of the issue.

DRIVER PAYS FINE OF \$50

Sixty-mile an Hour Ride on East Saanich Road Ends in Police Court

Several cases of infractions of the Motor Act were heard in Saanich Police Court yesterday and fines imposed.

Dr. W. E. Mitchell, who pleaded not guilty through counsel, J. V. Copeman, to a charge of driving to the common law, was found guilty by Magistrate George Jay and fined \$50. Although admitting he was traveling at sixty miles an hour on East Saanich Road last Saturday night, as testified by police officers whom he passed on the road, he did not think he was driving dangerously. Police officers, responding to the emergency call at Deep Cove, said they were traveling forty-five miles an hour in a car when the accused passed them.

Fines of \$5 were imposed on Gordon Crouch and Ronald G. McRae, when they pleaded guilty to charges of operating automobiles without the current year's license plates.

F. Sandford, R. Hill and W. J. Bell were each fined \$5 for failing to keep rear lights burning on automobiles at the time of the offence.

Dominic Pallantier was fined \$5 for failing to produce his driver's license upon request of a police officer.

Five youths, who pleaded guilty to charges of riding bicycles without lights after dark on West Saanich Road, were each fined \$3.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and readable. The longer an article the more likely it is to be cut. All communications must bear the name and address of the writer, but need not be published unless the writer so desires. The publication or rejection of articles is a matter entirely at the discretion of the Editor. No responsibility is assumed by the paper for the return of communications submitted to the Editor.

WHOLE WHEAT BREAD

To the Editor:—It seems quite time in these days of doing our best to get back to pure food values that we should be able to buy honest and reliable authentic whole wheat bread.

Such an article is greatly in demand by the public today.

There is much whole wheat bread available, also whole wheat flour procurable, seemingly many have a certain amount of "dehydrated" white flour added back again.

All idea is prevalent among the bakers that a strictly whole wheat loaf cannot be made, but such is not the case. Private individuals who mix their whole wheat and then grind in their own grist mills can readily make a whole wheat loaf.

If any interested and enterprising baker would get in touch with myself I would be only too glad to tell him how to mix and make same. It would be a fine thing to do.

And freshly ground flour as "the whole wheat" with its valuable life term quickly spoils when crushed, this is the germ of the same is a necessity if we want the pure full value.

WATCH FIGHT OVER BERRIES ON MAINLAND

Island Growers Concerned Over Outcome of Fraser Valley Market Controversy

Vancouver, Island berry growers, who are vitally concerned with the operations of growers in the Fraser Valley and the Interior, as these affect the great prairie fruit market, are watching with interest the efforts of the Mainland farmers to handle this year's marketing problems.

Out of a vigorous controversy between Valley growers who support the Produce Marketing Act and those opposed to it a complicated method of procedure has been arranged. The growers will hold local meetings in all centres on April 6 and elect delegates to a general convention to be held in Abbotsford on April 13. The general convention will receive from the local meetings the names of men nominated for positions on the berry committee of direction, which will have charge of marketing the berry crops.

The convention, by elimination votes, will reduce the suggestion of the local meeting to two nominations for the post of chairman of the committee and five for the two other positions on the board. These names will then be made the subject of a general ballot by mail in which all growers will vote. The result of the ballot will govern the appointment of the committee.

Before this proceeding is completed, however, growers opposed to the act will conduct a vigorous campaign to prevent its enforcement. They are expected to attempt to prevent the central meeting of April 13 from recommending members of the committee of direction, and if they dominate the assembly presumably no committee can be appointed. The existing committee will lapse on May 7. Meanwhile 625 growers have filed a petition with the Department of Agriculture asking for the continuance of the Marketing Act. The hands of the Mainland berry crop and the success of the growers there, however, is one of the biggest factors affecting the Island industry. Orderly marketing of the Valley output is highly desirable from the standpoint of the Island and to this end the Island growers have already agreed to a general plan with the growers of the Fraser Valley and adjoining districts. The result of the present dispute, therefore, is awaited with general interest here.

PROVINCE HAS NEW COAL FIELD

Outcroppings Indicate Unlimited Deposits at Hudson Hope in Peace River Block

A gigantic new coalfield is awaiting development in one of the far corners of British Columbia, according to Thomas P. Evans of Peace River, who is at the Dominion Hotel to-day.

"There is unlimited hard coal at Hudson Hope in the Peace River block of British Columbia. All coal in this block is in the great mineralized area of the northwestern territory."

Tests have been made on the Edmonton, Dunvegan and British Columbia Railway and the coal has been found to compare with the best anthracite.

"There are outcroppings of the coal on the banks of the Peace River, making it easily accessible for mining. The only drawback to the development of this great coalfield is the lack of transportation in that section of the country."

The Government, Mr. Evans says, is planning the construction of a highway this year from Peace River to Hudson Hope. From fifteen to twenty per cent more acreage is under tillage this year for the production of wheat in the Peace River territory, according to Mr. Evans. The settlers there are looking for a great season and hope to eclipse the record crop of over 10,000,000 bushels of three years ago.

Seeding of a section with Marquis wheat was already under way at Blueberry when Mr. Evans left Peace River three weeks ago. It is the earliest seeding known in the territory.

HEAD COLD? CATARRH?

Do not tolerate a stuffy head or blocked breathing passages. Put an end to your troubles by using "Nostrolin." Both the pleasant "Nostrolin" drops clear and reduce inflammation and so end your cold. Price 50 cents from Charles Hudson, 2060 Oak St., Vancouver, B.C.

Those splitting
Headaches

Do they come after you have had a touch of indigestion; or are they the price you always pay for allowing the bowels to become constipated?

In either case, ABBEY'S is often all you need to be free of Headaches. For ABBEY'S does everything that is necessary. It sweetens the stomach; neutralizes any acid condition; tones up the whole digestive tract; acts on the liver and keeps this important organ healthy and active. ABBEY'S insures the bowels moving regularly and naturally.

With indigestion, biliousness and constipation cleared out of your system by the cleansing, tonic action of ABBEY'S, you will be happily free of those splitting headaches. Just try a sparkling, refreshing glass of ABBEY'S in the morning and see how much better you feel all day.

Take...

ABBIE'S

The Morning Health Salt

For half a century, ABBIE'S has done its full share in protecting and maintaining the public health. It has brought the comfort and enjoyment of good health to people all over the world; and is generally regarded as the highest type of efficient after-dinner saline.

"Before My
Baby Was Born"

"I was in very poor health before my baby was born and had to lie down two hours every day. The doctor said I would never carry my baby as I was too weak. My mother persuaded me to try Lydia E. Pinkham's Vegetable Compound. It has helped me wonderfully. My baby is not very big but he is strong and healthy. I recommend the Compound to every woman I hear complaining and when I feel weak I take it again myself. Everybody says they never saw me looking better. I will be glad to answer letters if you will address them to be strong and healthy again."

GROWING PAINS
ARE FELT ANEW
BY NORTHWESTTerritories Will Shortly Ex-
perience Era of Development,
Major McKeand Says

Throwing strong light upon the potential economical value of the Northwest Territories of Canada, Major D. L. McKeand of Ottawa yesterday addressed a large audience of the Canadian Club at a luncheon held in the grillroom of the Empress Hotel. Major McKeand is assistant director of the Northwest Territories and Yukon branch of the Federal Department of the Interior.

When introducing the speaker, Mark W. Graham, president of the Canadian Club, recalled that only since 1880 have Canadians recognized that any value pertained to the Northwest Territories which after the prairie provinces had been carved out, still comprise one-third of the area of Canada.

"Many of us think the Northwest Territories are lands of ice, snow, Arctic owls and white foxes. This is true but only to a limited extent. The name 'Northwest' applied to this continent is older than the name 'America,' said Major McKeand, pointing out that Mercator, the geographer who gave the name 'America' to this continent, was directly responsible for the westward spread of Empire.

MACKENZIE RECALLED

Merchants were hesitant to enter development of this country until the Hudson's Bay Company received their unique charter. In 1793 Alexander Mackenzie went up the Peace River and so attained the Pacific Ocean, recording his achievement on a rock with paint mixed with fish oil.

NOT SO FAR NORTH

The sixtieth degree of latitude, the southern limit of the Northwest Territories, if projected eastward, bisects the Shetland Islands, Oslo, the capital of Norway, and Leningrad in Russia, all centres of population, Major McKeand said, pointing to this fact to counter ideas that settlement in the Territories would not be possible.

The method of government of the Northwest Territories was touched upon. Major McKeand believed that the development already notable in the prairie provinces will be duplicated in coming years in the Territories.

The entry route by way of the Mackenzie River and Fort Smith was sketched, and the speaker foresaw restocking of the prairies of the north with buffalo bred at Fort Smith.

Major McKeand told of the Eskimos, who are not wards of the Government on the basis of the Indian tribes, but full Canadian citizens, well equipped mentally and able to read, write, operate schooners and auxiliary engine craft, take photographs and sell them. Their chief occupation is following the northern game.

Large areas have been set aside as game preserves for the use of Eskimos and Indians, where no white men are allowed to shoot or trap. The reason for this embargo against trading posts, within or near these preserves, is based on the fact that some white men take advantage of privileges.

A ban has also been placed on entry of scientists, unless permits are first secured from Ottawa, this being because many archeological finds of value have been taken to other lands.

SPEEDY MAIL

Modern vessels now traverse the waterways of the Northwest and a radio or air mail service has cut the time

required by communication from a year or more to less than an hour.

SITTING ON POLE

In the Hudson Bay district the Department of the Interior has officers making investigations. Major Burwash is residing on the magnetic pole and has been in daily touch by radio with Ottawa.

The islands of Hudson Bay are very highly mineralized, and the Federal authorities are well acquainted with the prospects. Two mining corporations are now using tractors to haul supplies to mining camps.

The aeroplane is being used extensively to advance the mining development of the Hudson Bay district, said the speaker.

The islands in Baffin Straits are annually visited by expeditions from Canada, and the Royal Canadian Mounted Police carry patrols north and west to ensure the sovereignty of Canada in these islands.

"It is upon the native we must depend if the Territories are to be developed. It is the duty of Canadians to stand behind the Government in protecting the natives of these lands, which include one-third of the area of this great Dominion of ours," he said in closing.

When introducing the speaker, Mark W. Graham, president of the Canadian Club, recalled that only since 1880 have Canadians recognized that any value pertained to the Northwest Territories which after the prairie provinces had been carved out, still comprise one-third of the area of Canada.

Merchants were hesitant to enter development of this country until the Hudson's Bay Company received their unique charter. In 1793 Alexander Mackenzie went up the Peace River and so attained the Pacific Ocean, recording his achievement on a rock with paint mixed with fish oil.

"That was the commencement, only 136 years ago, of the development of Western Canada. Had he gone down the great river which bears his name, he might have crossed the divide to the Yukon and instead of Alaska now turning a revenue of \$75,000,000 to the United States, that area would also have been a part of the Northwest Territories," said the speaker.

Large areas have been set aside as game preserves for the use of Eskimos and Indians, where no white men are allowed to shoot or trap. The reason for this embargo against trading posts, within or near these preserves, is based on the fact that some white men take advantage of privileges.

A ban has also been placed on entry of scientists, unless permits are first secured from Ottawa, this being because many archeological finds of value have been taken to other lands.

Modern vessels now traverse the waterways of the Northwest and a radio or air mail service has cut the time

required by communication from a year or more to less than an hour.

In the Hudson Bay district the Department of the Interior has officers making investigations. Major Burwash is residing on the magnetic pole and has been in daily touch by radio with Ottawa.

The islands of Hudson Bay are very highly mineralized, and the Federal authorities are well acquainted with the prospects. Two mining corporations are now using tractors to haul supplies to mining camps.

The aeroplane is being used extensively to advance the mining development of the Hudson Bay district, said the speaker.

The islands in Baffin Straits are annually visited by expeditions from Canada, and the Royal Canadian Mounted Police carry patrols north and west to ensure the sovereignty of Canada in these islands.

"It is upon the native we must depend if the Territories are to be developed. It is the duty of Canadians to stand behind the Government in protecting the natives of these lands, which include one-third of the area of this great Dominion of ours," he said in closing.

When introducing the speaker, Mark W. Graham, president of the Canadian Club, recalled that only since 1880 have Canadians recognized that any value pertained to the Northwest Territories which after the prairie provinces had been carved out, still comprise one-third of the area of Canada.

"Many of us think the Northwest Territories are lands of ice, snow, Arctic owls and white foxes. This is true but only to a limited extent. The name 'Northwest' applied to this continent is older than the name 'America,' said Major McKeand, pointing out that Mercator, the geographer who gave the name 'America' to this continent, was directly responsible for the westward spread of Empire.

Merchants were hesitant to enter development of this country until the Hudson's Bay Company received their unique charter. In 1793 Alexander Mackenzie went up the Peace River and so attained the Pacific Ocean, recording his achievement on a rock with paint mixed with fish oil.

"That was the commencement, only 136 years ago, of the development of Western Canada. Had he gone down the great river which bears his name, he might have crossed the divide to the Yukon and instead of Alaska now turning a revenue of \$75,000,000 to the United States, that area would also have been a part of the Northwest Territories," said the speaker.

The sixtieth degree of latitude, the southern limit of the Northwest Territories, if projected eastward, bisects the Shetland Islands, Oslo, the capital of Norway, and Leningrad in Russia, all centres of population, Major McKeand said, pointing to this fact to counter ideas that settlement in the Territories would not be possible.

The method of government of the Northwest Territories was touched upon. Major McKeand believed that the development already notable in the prairie provinces will be duplicated in coming years in the Territories.

The entry route by way of the Mackenzie River and Fort Smith was sketched, and the speaker foresaw restocking of the prairies of the north with buffalo bred at Fort Smith.

Major McKeand told of the Eskimos, who are not wards of the Government on the basis of the Indian tribes, but full Canadian citizens, well equipped mentally and able to read, write, operate schooners and auxiliary engine craft, take photographs and sell them. Their chief occupation is following the northern game.

JUBILEE W.A. TAGTO-MORROW

Appeal to Be Made By Hospital Auxiliary; Conveners Named

The Women's Auxiliary to the Jubilee Hospital will hold their annual tag day tomorrow. When it is hoped the public will respond with the generosity which has marked similar appeals in previous years. The proceeds will be devoted to the excellent work which the auxiliary carries on for the hospital—year-in-and-year-out: supplying equipment, linen and the hundred and one things which are needed in a hospital.

Taggers willing to assist in collecting will be welcomed at the headquarters for the day, the Melrose Co., Fort Street.

Stations and conveners will be as follows: Empress Hotel, Rev. A. de B. Owen; Post Office, Mrs. Wood; Victoria Book and Stationery Co., Mrs. Campbell; Williams Drug Store, Mrs. French; C.P.R. Miss Currie; Government and Yates, Mooseheart Legion, Victoria Chapter, nurses; Broad and Yates, Mrs. W. Feden; Broad and View, S.P.C.A.; Times, Mrs. Catterall; Pemberton Building, nurses; Terry's Jubilee Alumnae; Spencer's, Mrs. Hermann Robertson; Woolworth Building, Mrs. Muirhead; Bank of Montreal, Mrs. Unsworth; Hudson's Bay Co., Liberal Forum members; Fort and Cook, nurses.

GOLD PYJAMAS
Golden satin and gold cloth fashion a suit of stunning tea pyjamas. The trousers of satin lace up the legs with gold cords and the little tuck-in jumper of satin has gold embroidery. The hip-length coat is made of gold cloth, severely tailored.

When Your Stomach Groans With Gas

When Sourness, Pain and Bloating Follow Every Meal
MAKE THIS SIMPLE TEST
If you really want stomach comfort—quick, certain and lasting relief from the usual annoyances of after-eating distress—make this simple NEVER FAILING test to-day!

At trifling cost, get from your nearest druggist a few tiny tablets of Bisulac Magnesia—and take three or four of them after your next meal. This is a simple, pleasant, inexpensive test that can be depended upon to move its value in less than five minutes. In most instances relief comes instantly.

Pure Bisulac Magnesia (now in handy tablet form) is a harmless, non-laxative preparation of old-fashioned Magnesia with Bisulphuric acid, when taken, at once soothes, cleanses, sweetens and neutralizes the dangerous stomach acids that cause most stomach ailments—Aak—eruct—distress—start the test to-day! (Adv.)

Graduation Ceremonies Are Held At St. Ann's

Many Attend Exercises for St. Joseph's Hospital Training School for Nurses; Lieutenant-Governor and Provincial Secretary are Speakers

The auditorium of St. Ann's Academy was filled to overflowing last night by the audience eager to witness the annual graduation ceremonies of the 1929 class of St. Joseph's training school for nurses, the ceremony being one of the most beautiful in the history of this pioneer school. The graduates who in their snowy uniforms filed into their seats on the flower-decked stage were as follows: Mrs. J. A. Williams, Merritt; Jessie Claire Macaulay, Victoria; Muriel M. Pitts, Windermere; Elizabeth C. Hercimer, Victoria; Helene K. Gibbs, Victoria; Ada Louise Groves, Vancouver; Elizabeth C. Bell, New Westminster; Winifred Florence Abbott, Victoria; Elizabeth Newbold, Vancouver; Edith May Bryce, Riverhurst, Sask.; Winifred Doris Humphries, Cassidy; Mabel Joyce Scammell, Victoria; Edith O'Brien, Cumberland; Mary Maude Pryor Bevan, Duncan.

LIEUT.-GOVERNOR SPEAKS
His Honor the Lieutenant-Governor, who was accompanied by Miss McEwen, spoke during the evening in his happiest vein, congratulating the nurses on their graduation, and encouraging them with advice as to their future well-being and with good wishes for their success in their chosen career.

Hon. S. L. Howe, Provincial Secretary, in a brief address, commended the training school upon its excellent results and emphasized the need of trained nurses in the outlying districts of the Province. He wished the 1929 class every success. Major Anson, after complimenting the graduates, referred to the splendid new wing of the hospital now nearing completion, which should be the pride of the citizens of Victoria. He thanked the governing body of the hospital for their enterprise and initiative in this addition to the excellent hospital facilities of the city.

Rev. Thomas O'Donnell, Bishop of Victoria, who presided, made the announcement that the erection of nurses' residence was about to begin.

An announcement which was received with spontaneous enthusiasm.

MEDALS PRESENTED
As the graduates were called from the platform they received their medals and diplomas from Dr. W. T. Barrett, chairman, supplemented by the many beautiful bouquets sent in by parents and friends. The following bursaries were also presented: Bursary for most efficient work, first year nursing, presented by Graduate Nurses' Association of Victoria, equally merited by Misses Phyllis Rich, Jean Fontana, Alice Pye, drawn by Miss Alice Pye; bursary for most efficient work, second year nursing, presented by Mrs. Angus Campbell, equally merited by Misses Margaret Stone, Ruth Stewart, Margaret Rupe and Jean Purves, drawn by Miss Margaret Rupe; bursary for highest marks in examinations for three years, presented by St. Joseph's Hospital Ladies' A-L-H-A-Y, won by Miss Edith O'Brien.

Miss Claire Macaulay recited the valedictory in clear tones, after which the graduates sang in unison the school song, "Loyal and True." Dr. Gordon Kenning, president of the hospital staff, addressed the girls, emphasizing the need for conscientious nurses, pointing out that technical knowledge was only one phase of their efficiency, the sympathy and tact being of paramount importance in dealing with the sick. He advised them to "put yourself in the patient's place."

MUSICAL PROGRAMME
A musical programme included songs by Ernest Butterworth, Thomas Kewley and Mrs. Byles Sehl, with Mrs. C. G. Warn at the piano, each number being warmly received.

At the conclusion of the formal programme, the graduate nurses and invited guests gathered in the transformed lecture room of the hospital, which was gay with flowers for the occasion. A pleasant social hour was enjoyed, Hon. R. R. Bruce and Miss Mackenzie sharing in the happy occasion. Delicious refreshments were served the evening coming to a close at 11 o'clock.

MRS. N. SHERMAN DIES IN EAST

Wife of Former Work Point Officer Succumbs at Kingston

Many Victoria friends, particularly in military circles, will learn with sincere regret of the death in Kingston, Ontario, of Mrs. N. Sherman, wife of Major N. Sherman, formerly of this city. No particulars have been received.

Major Sherman was stationed at Work Point Barracks with military headquarters for some years. Two years ago they were transferred to Kingston, Ontario, where they have since resided. During their stay here they suffered the tragic bereavement of the death of their two children, and the sympathy of a wide community will go out to Major Sherman in his latest sorrow.

Here For Conference

Dr. Winifred Clara Cullis, O.B.E., M.A. (Cantab.), D.Sc. (London), professor of physiology in the University of London, arrived in the city to-day to attend the conference of education and leisure, and while here is the guest of Mr. and Mrs. Alan Morkill, Pemberton Road.

Born in Gloucester in the year 1875, Professor Cullis was educated at King Edward VI High School for Girls, Birmingham, and Newnham College, Cambridge, where she took Natural Sciences Tripos, Parts I and II, 1899 and 1900.

Professor Cullis is teacher of the university lecturer and head of the department of physiology in the Royal Free Hospital School of Medicine for Women situated in London, England. She is also president of the British Federation of University Women, vice-president of the International Federation of University Women, and a member of the council of the National Institute of Industrial Psychology.

Professor Cullis has written a thesis as to the action upon the isolated mammalian heart of defibrinated blood, besides a number of other papers in the Journal of Physiology.

MRS. SAMPSON AGAIN HEADS I.O.D.E. IN B.C.

Mrs. A. F. Griffiths of Victoria Chosen Vice-President of Provincial Chapter

Vancouver, April 5.—Delegates from all parts of British Columbia met again at the Women's Building this morning for the second day of the sixteenth annual meeting of the Provincial Chapter, Daughters of the Empire, of Vancouver, second vice-regent, Miss E. Dobson of Nanaimo, third vice-regent, Mrs. Frank Stead of Vancouver, fourth vice-regent, Mrs. F. E. Dockerill, fifth vice-regent, Mrs. Lang of Anyox, sixth vice-regent, Mrs. Gordon Smith, Victoria, secretary, Miss Alice Terry, Victoria, treasurer, Miss A. B. Cooke, Victoria, educational secretary, Mrs. L. W. Peel, Echoes secretary, Mrs. G. H. Riley, Sardis, organizing secretary, and Mrs. O. J. Rochford, Sidney, standard bearer.

Primary Chapter reports all showed an active and successful year, and were by delegates representing North Saanich, Cowichan, Ladysmith, Nanaimo, Fernie, Vernon and Anyox. Mrs. Curtis Sampson of Victoria presided, and standing committee reports were given by Mrs. Rose Day, immigration, financial, League of Nations and I.O.D.E. Girl Guide Chapters.

DELEGATES' EXPENSES

No other topic of the morning caused more discussion than a resolution introduced by the Tripartite Chapter of Vancouver, resulting from the difficulty of collecting the money necessary to send a provincial delegate to the National Chapter meeting. The resolution as worded was as follows: "Be it resolved that in future notice be sent in ample time to all primary chapters in order to ascertain whether delegates are to be sent from provincial, and if so, how much of the expense they will assume."

BOOKS BY CANADIANS

At a previous Provincial Chapter meeting it was urged that books compiled and written by Canadians be used in British Columbia schools. Following up this recommendation, the Dr. O. M. Jones Chapter sent the following resolution which was endorsed and will be sent on to the Department of Education.

"That the elementary English grammar by D. L. MacLaurin, B.A., principal of the Victoria Normal School, and D. J. Cogge, M.A., D.C.L., be the prescribed grammar textbook used in the B.C. schools."

A third resolution passed asked that the embroidered banner of the "badge of the order" be purchased. Through the generosity of a member, this banner will be presented to the Provincial Chapter.

VICTORIA HEADQUARTERS

Victoria will continue to be the headquarters of the Provincial Chapter, I.O.D.E., for a further year, according to a decision reached at the opening session yesterday. Mrs. Curtis Sampson presided. An address of welcome was extended to the delegates by Mrs. A. J. Patterson, and replied to by Mrs. L. A. Genge of Victoria.

Miss E. Dobson of Nanaimo, Mrs. F. E. Dockerill of Victoria, and Mrs. A. U. de Pencier of Vancouver, were appointed a committee in charge of resolutions.

An interesting report of the Vancouver Municipal Council's activities was presented by Mrs. de Pencier, and Mrs. W. N. Martin reported for the Burnaby Chapter. Much work was also accomplished by the Chilliwack, Prince Rupert and Victoria Chapters.

MRS. SAMPSON'S ADDRESS

In her presidential address, Mrs. Sampson lauded the splendid efforts of her executive, and the strong and continued co-operation of the members. She expressed the heartiest rejoicing of the chapter in the splendid recovery being made by the King, and also extended deep sympathy to France in the loss of the late Field Marshal Foch. The war memorial work, child welfare activities and work in connection with the prevention of tuberculosis are still being assisted by the chapter, and other social service work. Mrs. Sampson expressed her appreciation of the fact that the National I.O.D.E. Conference was to be held in Victoria in May.

Mrs. J. Gordon Smith, the honorary secretary of the Provincial Chapter, outlined the work of the chapter during the past year. She urged the members to support the British films, and British players, and also to patronize home industry on every possible occasion.

RESOLUTIONS PRESENTED

Eight resolutions were received and definitely dealt with; two, dealing with the printing of textbooks, and with the proper care of the feeble-minded, being forwarded to the Government and the remainder to the National Chapter.

The financial standing of the chapter was presented by the treasurer and auditor, Miss I. Terry; and Miss A. B. Cooke, representing the educational department, reported that many presentations of libraries to rural schools had been made, and that 1,600 calendars had been taken by the various affiliated chapters. A number of annual scholarships are also awarded by certain of the chapters.

COUNCILLORS ELECTED

The following were elected provincial councillors for 1929: Mrs. W. H. Belson, Sidney; Mrs. A. E. Beck, Vancouver; Miss A. B. Cooke, Victoria; Miss J. Cree, Victoria; Miss E. Dobson, Nanaimo; Mrs. A. U. de Pencier, Vancouver; Mrs. F. E. Dockerill, Trail; Mrs. Albert Griffiths, Victoria; Mrs. C. Grosvenor, Chilliwack; Mrs. B. P. Grier, Vancouver; Mrs. H. Hill, Victoria; Mrs. W. H. Hawshaw, Chilliwack; Mrs. W. Hall, Vancouver; Mrs. David Miller, Victoria; Mrs. John McKee, Ladysmith; Mrs. Dallas Perry, Vancouver; Mrs. O. J. Rochford, Sidney; Mrs. J. Gordon Smith, Victoria; Mrs. Curtis Sampson, Victoria; Mrs. R. J. Spry, Vancouver; Mrs. Frank Stead, Vancouver; Miss Alice Terry, Victoria; Mrs. Andrew Wright, Victoria; Miss Millicent Wright, Vancouver, and Mrs. Edgar Lee, Vancouver.

Your Baby and Mine

By MYRTLE MEYER ELDRED

A POINT OF ARGUMENT BETWEEN FRIENDS

Mrs. McN. writes: "I have a friend who has two little girls four and five years of age. She is bringing them up very nicely and will not let them play with other children because she says they are too tough. She provides them with good toys and they play all alone. She feels that the children might try to imitate the tough children and forget her good training. Do you think she is right?"

"Is a child of three too young to go without a daytime nap? She sleeps from 8 to 7:30."

ANSWER

The answer depends entirely on the ages of the other children. If they are of the same age, I doubt whether the companionship would hurt either of them. There is no reason to feel that these two children, who have been so admirably reared, should lose their training entirely due to temporary companionship with other children.

However, if the mother continually tells her good children that these others are "tough" and "terrible," she will make them so fascinating that once the children come into contact with them, they will undoubtedly imitate them and then get a great deal of satisfaction out of the consternation of their mother. It hardly seems right to let any child grow up with a consciousness of his superiority over other children. Different he may be, but each can respect the other's differences and remain himself. Even children aren't too young to learn this lesson.

We come into contact with members of society whose manners, customs and ideas are far different from our own, but we don't refuse to listen to them, or feel that in their society we are likely to become like them and entirely lose our own individuality.

Mothers have to choose their children's companions when they are young, and she should choose children who are of similar ages. But I doubt if any child of four or five could be so "tough" as to hurt any other child of a like age. Home influences which are constant and consistent ought certainly to have much more lasting value than this mother feels they have.

The usual three-year-old child does not want a daytime nap. But if the nap time is approached in the right way, the child may manage to stay quietly in bed for an hour, with some favorite toy and with doors open and the blinds up.

SOCIAL AND PERSONAL

A delightful surprise was visited upon Mrs. Thos. Keyworth, wife of Rev. Thos. Keyworth, minister of James Bay United Church, yesterday afternoon in the form of a china shower by the members of the Ladies' Aid Society of the church. A large number were present, and listened to a splendid report of the committee in charge of the cooking sale held recently. Mrs. Wilkinson and Mrs. Harris reported a splendid response both in the matter of givers and buyers and a goodly sum netted for the society. Arrangements were made for a guest tea for the middle of the month to be held at the paragon, 679 Battery Street. In a happy speech the president, Mrs. G. Kirkendale, asked Mrs. Keyworth to accept the various gifts of china that had been brought as a token of kindly appreciation and affection on the part of the aid. Mrs. Keyworth suitably responded. Many kind things were said regarding the work of the church in general, and particularly of the Easter services and decorations. The minister, Rev. Thos. Keyworth, was asked to close the meeting, after which refreshments were served.

Vacuum Cleaner Attachments are Obsolete

A WONDERFUL new cleaner, the Premier Spic-Span, has made vacuum cleaner attachments obsolete.

This diminutive but powerful cleaner not only takes the place of these clumsy, inefficient tools; it does cleaning jobs that attachments never could do.

The Spic-Span has introduced an absolutely new era in house-cleaning. Handling as easily as an iron, it brings amazingly powerful suction directly into the very smallest out-of-the-way corner. It cleans furniture and car upholstery, stairways, hangings, etc., with a degree of thoroughness and speed that has never been possible before.

Now, without a Spic-Span, your house-cleaning equipment is not complete. For the Spic-Span is an epoch-making advance in house-cleaning tools. Phone for a demonstration.

Time in on the Premier Family Hour every Wednesday, 11 p.m., Eastern Standard Time, Station CKGW, Toronto

Sore, Tired Feet

Oh! How good it feels to put your tired, aching feet in the "TIZ" Bath! You can just feel the pain being driven out of your feet. The "TIZ" Bath soothes and soothes away the aches and pains that puff up your feet and make them tender and sore. It takes all the soreness out of corns, calluses and strained muscles, and makes tight shoes feel a half size larger. Get a box of "TIZ" at any drug or department store and have weeks of foot comfort for a few cents.

Bathe Them in "TIZ"

BUDGET VOTE NEXT WEEK

Commons Attendance Slim on Two Days' Sittings This Week

Ottawa, April 5.—After a holiday of about two weeks, the House of Commons resumed its session yesterday afternoon. The attendance was somewhat slim. In view of the fact that there were only two days of sittings this week, a number preferred to remain at home over the next week-end. They will be here in full force on Monday.

The House yesterday again took up consideration of the budget and the two amendments. The Commons now has before it the formal proposal of Hon. James A. Robb, Minister of Finance, "that the Speaker do now leave the chair for the House to go into committee of ways and means."

Approval of this motion will mean the adoption of the budget. From the Conservative ranks there is an amendment in which Hon. R. B. Bennett's followers would express regret "that the financial proposals of the Government make no provision for reasonably safeguarding and protecting the interests of those engaged in agricultural pursuits or in industrial employment in Canada."

Kellogg's RICE KRISPIES

cultural pursuits or in industrial employment in Canada."

This was moved by Hon. Hugh Guthrie, South Wellington, Ont., on March 7.

Later in the pre-recess debate the U.A. group brought in sub-amendment. H. E. Spencer, Battle River, moved that the House "urge upon the Government consideration of an immediate and substantial increase of the British preference as a step towards freer trade relations between Canada and other nations."

VOTE NEXT WEEK
These are the three proposals which the members have before them and upon which they will be required to vote, probably next week.

The debate yesterday was carried along largely by members sitting to the left of the Speaker.

NO EMBARGO WANTED

The list of tariff reductions from 1922 to 1928 was the greatest that could be shown for any similar period in Canadian history, said L. P. Bancroft, Liberal Progressive, Selkirk, Man., who opposed the suggestion of an embargo against United States exports to Canada. He said history had shown in the instance of the Fordney-McCumber tariff bill, passed by the United States Congress in 1922, that a tariff meant to protect the interests of the farmers was in fact highly detrimental to the economic progress of a nation. In the case of the United States it had meant bankruptcy for hundreds of Middle Western agriculturists. It was likely an embargo in Canada would have the same effect.

Oscar I. Boulanger, Liberal, Bellechasse, Que., urged upon the Government the desirability of giving preference in the colonization of vacant lands to native-born Canadians.

NEILL SPEAKS

A. W. Neill, Independent, Comox-Alberni, said he had a motion on the order paper of the House having a bearing on the future of the Manufacturers' Finance Corporation, with headquarters at Toronto. The purpose of the motion, he declared, was for enactment of a safeguard for the public interest in the functions of the future of similar origins. This motion, Mr. Neill proceeded, has been withdrawn by him because of the fact that he would not have an opportunity fully to discuss the matter in Parliament this session, but what he wanted was consideration of this whole situation in the banking and commerce committee of the House.

He asked the Government to adopt the suggestion and referred to the affairs of the Manufacturers' Finance Corporation as an "unhappy mess."

Mr. Neill's second suggestion was that promoters of any company should be forbidden to advertise the names of members of the Senate—or the House of Commons in their prospectuses. The only reason they did so, he said, was to induce people to invest who otherwise would not.

EVANS SPEAKS

John Evans, Progressive, Rosetown, Sask., criticized the "unjust" advantage under the tariff which he claimed was being taken by Canadian millers, Canadian flour, he said, was dearer in Canada than in other countries. This was due to the "unjust" manner in which the tariff rates were fixed, he believed.

Others who spoke were: Dr. Ira Cutnam, Conservative, Renfrew, North, Ont.; D. M. Kennedy, U.F.A., Grace River; Finlay Macdonald, Conservative, Cape Breton South, Col.; G. B. Rennie, Conservative, Hamilton East, and E. J. Gott, Conservative, South Essex, Ont.

TRIBUTES APPRECIATED

Gratitude of the French Government for the tributes paid in the House of Commons to the memory of Admiral Foch were expressed in a letter from Hon. Jean Knight, French Minister to Canada, read to the House by Speaker LeMarchand.

WASHINGTON VISIT
The visit to Washington during the Easter recess of Hon. James Macdonald, Minister of Trade and Commerce, was the subject of a question. Hon. R. J. Manion, Conservative, Fort William, said press dispatches from Washington had announced the visit to the United States capital and had stated the Minister of Trade had called on President Hoover and other officials of the Government of the United States.

Dr. Manion inquired if Mr. Macdonald had any statement to make to the House in respect to any possible trade agreement.

Mr. Macdonald replied that his visit to Washington had been a personal one, in the course of which he had made a call of courtesy on President Hoover.

Seven Deaths In Tasmania Flood
Robert Taggart, April 5.—The village of Derby, with seven deaths in habitants, was destroyed yesterday by the flood released by the breaking of great dam from the weight of water accumulated after torrential rains. Thousands of tons of water rushed in a terrific speed down the narrow gorge in which the mining town stood and swept everything in its path. Seven men at the Brisels tin mine were carried away, but others escaped.

HOCKEY & BOXING

Frailest of Champs Turns Aside Strong Challenge of Indian

Tod Morgan, Champion of Junior Lightweights, Wins Six Out of Ten Rounds in Tough Battle With Santiago Zorilla at Los Angeles Last Night; Stinging Left and Right Hooks Hold Off Boring in Tactics of Dusky Challenger; Morgan Suffers Bad Cut Over Left Eye in Early Rounds; Zorilla Warned For Hitting Low.

Los Angeles, April 5.—Tod Morgan might be the frailest of the ring kings, but he also is the tightest of them all, in more ways than one. The junior lightweight champion last night, in the same Olympic Auditorium ring where in 1925 he battered Mike Balserino, stocky Bayonne, N.J., ring man, almost senseless to win the 130-pound diadem, thrusted aside with decisiveness the second title challenge of Santiago Zorilla, twenty-one-year-old native of the Panama jungles. The bushy-haired San Blas Indian battled Morgan to a draw last December at San Francisco.

Morgan's victory over the dusky challenger gained at the cost of a badly slashed left eye, was his without question of a doubt. A crowd of 9,778 fans witnessed the titanic fray, and few were the dissenting voices raised when Lieut. Jack Kennedy of the United States Navy lifted Morgan's hand. Ringfighters almost unanimously agreed that the titleholder had won six of the ten rounds, gave one to Zorilla, and labelled the remainder even. Morgan, facing a tiring foe, took the last four rounds.

ZORILLA BORES IN

The hobbling, weary, kink-necked challenger made his biggest bid in the early rounds, but the pace, a fairly fast one, combined with Morgan's sharpshooting and greater ring generalship, combined to thwart him through the deciding sessions. Zorilla was continually boring in with gloves volleys punches but Morgan scored heavily at long range with his stinging left hook and used a chopping right effectively when in close.

MORGAN'S EYE CUT

Morgan's eye was cut in the second round, either by a bump from the black head of the challenger, or from one of Zorilla's looping rights. The injury only spurred the champion, and although Zorilla frequently landed to the cut, Morgan appeared master from the third round on.

Zorilla landed dozens of punches, but none appeared to trouble the titleholder. Zorilla was warned several times by the referee against hitting low and baiting with his head in the clinches. In the ninth round Zorilla landed a low blow that caused Morgan to double up. After a brief pause to recuperate, the champion signified willingness to continue.

Morgan has defended his crown fifteen times since winning it December 2, 1925.

LOHMAN SHOWS LOTS OF CLASS

"Dusty" Miller's Opponent Impresses Fans in Work-out Last Night

Joe Lohman, Toledo heavyweight, and "Dusty" Miller, local glove-thrower, principals in the ten-round main event of the Central Boxing Club's title show at the Tillicum gymnasium to-morrow night, will complete their training to-night. Miller will work out at 7:30 o'clock, followed by Lohman, at 8 o'clock.

The Toledo battler made his first appearance at the Tillicum gymnasium last night and delighted an audience of approximately two hundred fans with his speed, punch ability and ring work. He looks the best prospect that has ever set foot in this city to battle the crafty and heavy-hitting Miller. After seeing him in action last night the general opinion was that Lohman would give the local boxer one of the toughest fights of his long career.

Today, on the eve of the great battle, Lohman has taken away the odds that Miller held yesterday and now even money only is being offered on the local boxer's chances of grabbing off a victory from the classy Toledo leather-thrower.

Mrs. Hew Paterson Wins Medal Round

Mrs. Hew Paterson took first honors in "A" class of the April ladies' medal competition at the Victoria Golf Club. She turned in a gross score of 97—wins her handicap of 10 reduced to 87. Miss Ruth Jones won the "B" section laurels.

In the ladies' foursomes played during March, Mrs. Howell and Mrs. Prior came up as close the leaders in the victory section.

Mrs. Weith and Miss Ruth Jones overcame Mrs. Hemmings and Mrs. Sutherland to win the second section.

BRITISH WINS

Saskatoon, April 5.—It took Jack Taylor, British Empire heavyweight wrestling champion, but nine minutes last night to beat Bill Demetriou, Chicago, Greek mat man, in a match here.

SIGNS CONTRACT

PAUL WANER

big batting noise of the Pittsburgh Pirates who has finally come to terms after a long hold-out through salary differences with Barney Dreyfuss, president of the club. Paul and his brother Lloyd were both hold-outs during the entire training season, but Lloyd signed his contract two weeks ago.

Portugal Out Of Davis Cup Series

Amsterdam, April 5.—Portugal having retired from Davis Cup tennis competition through inability to assemble a team to meet Holland in the first round, Holland will advance to the second round without competition. The winner of the match between Finland and Egypt will be the Dutch team's opponent in the second round.

HOOP TEAMS TO BATTLE FOR TITLES

Two Provincial Sunday School Championships at Stake To-morrow Night

Orioles and Axioms to Meet Vancouver Squads; Local Teams Play For Shield

Two B.C. Sunday School basketball play-offs finals will be decided at the Y.M.C.A. gymnasium Saturday night. Local hoop fans will also have the opportunity of seeing the final for the Bob Whyte shield. This trophy represents the championship of the "B" section of the City League knockout competition and Victoria College and Crescents will be the contesting teams.

In the first game Orioles from the First United Church will pit their basketball team against the Mount-Tain View team of Vancouver. The victorious team will be the B.C. Sunday School junior girls' champions.

The local team, is made up of the following girls: Lola MacMurchie, Margaret Crawford, Mary Purdy, Katherine Alexander, Norma Kinsman, and Vivian Hanna. These girls have been playing excellent ball this year, and have victories to their credit over many of the heavier and more experienced teams of the city.

The second game will find the Axioms entertaining the Mountain View senior girls from Vancouver. This visitors are reported to be a fairly good team, and should be a fairly close game.

Ken Waites states that his team will beat full strength. Bruce Low and Lloyd Jones will be at forward with Norm McConnell at centre. Roy Temple and Vernon Jones will make up the guard line. Jan Spence and Roland Thorpe will be ready to fill in should occasion arise.

Strength. Claude Bissell and Dave Patterson will start at forward with Gordon Rogers at centre. Bill Whyte and "Chuck" Chapman will form the back line of defence. Alf Foubister and Gordon Gilmour will be the reserve strength of the Colliars.

The first game will start at 7:30 with Tommy Forbes handling the whistle.

CLUB TITLE TO BE FOUGHT FOR

Macaulay Point Players Will Tee Off in Qualifying Round on Sunday

Members of the Macaulay Point Golf Club will tee off Sunday in the qualifying round of the annual club championship. Fifty-eight entries have been received for the event and keen competition is anticipated.

The qualifying round will be played over eighteen holes, and this will be played in two divisions, one in the morning and another in the afternoon. Norman Wallace, one of the club's youngest players, at present holds the title and he will be out to defend his championship.

The draw and starting times follow:

MORNING
9:00—F. Syddell and W. O'Neil.
9:05—R. W. Watson and J. H. Carver.
9:10—F. White and M. M. Moore.
9:15—J. D. McNeill and N. Gunn.
9:20—F. Lister and N. Wallace.
9:25—F. J. Pearce and R. Promson.
9:30—Gordon Smith and W. Williams.
9:35—H. Roberts and G. H. Bevan.
9:40—H. Pigot and P. McQueen.
9:45—E. Shadobut and A. Roberts.
9:50—T. Brown and R. Whitlaw.
9:55—V. M. Gallon and J. L. McIntyre.
10:00—D. Fyvie and E. D. Freeman.
10:05—A. G. Fulmer and C. V. McNeill.
10:10—T. Angus and C. L. Campbell.

Winnipeg Toilers Win Series Easily

Winnipeg, April 5.—Winnipeg Toilers, advanced a step up in the Dominion play-downs here last night when they side-tracked the Fort William Cubs. Thunder Bay aspirants, by an overwhelming margin in the two-game series. The Lake Head boys were beaten last night, 45 to 10, losing the round by 34 to 26. In the next round of the Western play-offs, Toilers play the Saskatchewan champions, Regina, at Regina next Monday and Tuesday.

VICTORIA TO LOSE HER OUTSTANDING MERMAID

—Photo by Gibson

Audrey Griffin, outstanding local mermaid, is receiving congratulations upon her marriage in Vancouver to-morrow. Following the event Audrey will leave for Minneapolis, where she will reside on a ranch. Local swimmers will be sorry to hear of Audrey's departure as she has brought many swimming titles to this city and her loss will be sorely felt.

Since Audrey came to Victoria sixteen years ago as a slip of a miss not in her teens she has been the outstanding woman swimmer in the Pacific Northwest. In all the years she has competed in the British Columbia championships she has never been beaten. She holds practically all the records. Her activities were not confined to this side of the line and she won numerous P.N.A. titles. Many girl swimmers were groomed to defeat her but they passed on and others tried but Audrey has kept right on winning races. Last year she went to the Banff Winter carnival and made a clean-up of the women's events. She has won every free style Canadian championship for women staged in the West.

Perhaps Audrey's outstanding accomplishment has been her phenomenal success in winning the gruelling Through-Victoria Swim for The Times. She has competed in the event twelve times and on nine occasions has been the winner. She won for eight years in succession, establishing a record of one hour and two minutes for the three miles. Her string of victories was ended by Johnny Cameron, of Vancouver, who using his powerful over-arm won two years in succession. Then Audrey came back and won for the ninth time. She did not swim last year, being the first time in thirteen years she had passed up the event.

With Audrey leaving Victoria a big gap will be left in the ranks of the Capital swimmers. She was always the big point winner for Victoria in the inter-city galas and there is no mermaid to take her place. Vancouver swimmers can look forward to a walkaway in all the women's events in the future.

Before Audrey took her dip into the sea of matrimony she went to the photographer and had a picture taken with all the cups and medals that she could find around the house. She has won dozens of cups and hundreds of gold and silver medals. Her collection is one of the biggest owned by any athlete in the West. In the above picture she is shown with her medals. Audrey is marrying J. R. Kieran, son of E. J. Kieran, of Minneapolis. She formerly lived in that town.

ATHLETES OPEN STORE IN CITY

Two Well-known Athletic Stars From Kamloops Start Business Here

Bert Fiddes and Johnny Craig, formerly of Kamloops, two of the best known athletes in the Province, have arrived in Victoria, and on Saturday will formally open their general furnishing store at 739 Yates Street.

Fiddes is a prominent basketball executive and was the organizer of practically all athletics in Kamloops. He has taken a prominent part at times in boys' work.

Craig is well-known for his ability as a basketball and baseball player. He was a member of the Kamloops basketball team in 1927, which made history by its memorable defeat of the Winnipeg Cubs. In baseball he plays shortstop and was an outstanding fielder while residing in Kamloops.

The new store will feature all lines of haberdashery giving special attention to English lines.

Mr. Craig recently became a benedict, being married in Revelstoke on April 2.

CITY WILL MEET STIFF OPPOSITION

Local Soccer Champs to Play Hotel Vancouver in Province Cup Match

Mainlanders Have Powerful Team; City's Record in Local Competition Good

Victoria City, soccer champions of the local First Division, will meet their most severe test of the season to-morrow afternoon at the Royal Athletic Park when they stack up against the Hotel Vancouver, Second Division eleven from Vancouver, in a Province Cup match. The game will start at 3:30 o'clock, and as this will be the only senior game scheduled, a record turnout of fans is expected.

Victoria City have one of the strongest elevens to represent this city in the provincial series for some years. They have swept through all local opposition and are expected to go quite a way in the provincial series. Their strongest team will be on hand with Bridges in goal, and Margison and Tuckwell full-backs. The halves will be Stoffer, Preston and McEay. The forward line will be selected from: Chagnon, D. Bissell, C. Bissell, Burns, Martin, Smith and Gieney.

The Hotel Vancouver team will be as follows: Rabbit, Piper, Skyrme, Cahill, Devlin, McCulloch, Miles, Callaghan, Clark, Adams and Anderson. All junior and juvenile football teams will be in action to-morrow with the following matches carded:

JUNIOR LEAGUE
Victoria City vs. Esquimalt, at Beacon Hill, upper ground.
Bapcoos vs. James Island, at Beacon Hill lower ground.
Oaklands vs. Victoria West, at Central Park.
Kick-offs at 3 o'clock.

JUVENILE LEAGUE
Division II
Five C's vs. Spanish Thistles, at Beacon Hill, lower ground. Kick-off at 1:30 o'clock.

DR. A. POYNTZ IS PRESIDENT

Elected Head of Hillcrest Tennis Club; Play to Commence Shortly

Dr. Arthur Poyntz, well-known sports enthusiast, was elected president of the Hillcrest Tennis Club at the annual meeting held recently. He is a well-known tennis player and has been a member of the club for many years. The club decided to admit a limited number of new members both senior and junior. Any player wishing to join the organization is requested to communicate with the secretary at 874 Dunsmuir Road or telephone 50131, after 6 o'clock.

The three hard courts installed by the club last season are in excellent condition, and play is expected to start about the middle of this month. The complete list of officers follows: Honorary president, Dr. A. Poyntz; honorary vice-presidents, J. Elrick and W. Thompson and H. Davey; honorary secretary and treasurer, J. V. Kent-Fawkes; executive members, P. Mulvihill, R. Butler, H. Pullen and Mrs. Poyntz.

Bill Robertson And Betty Pollard Win Swimming Handicaps

Starting five seconds before scratch, Bill Robertson led the field in the weekly fifty-yard swimming handicap held by the V.A.C. at the Crystal Garden last night. Wilf Loughheed came second, and was closely followed by Frank Hyslop. The winner's unofficial time was 32 seconds.

Betty Pollard won the ladies' event. Phyllis Hodgson finished second, while Winnie Pollard came in third.

The V.A.C. Summer programme will be discussed at the club's meeting in the K. of C. Hall, Government Street, on Tuesday evening.

Virginia Van Wie And Miss Collett To Meet in Finals

Pinehurst, S.E.A. April 5.—Miss Virginia Van Wie, Chicago star, will meet to-day in the finals of the North and South women's golf tournament. Miss Collett, yesterday won the eighth hole, Miss Van Wie eliminated Miss Edith Quiler of Reading, 5 and 3 in the other semi-final.

Lucky Goal Margin Win Over Portland

Buckaroos Put Up Great Fight Against National League Team in Second of Exhibition Series; McGoldrick Deflects Burch's Shot Into Portland Net; Conn Gives Great Exhibition of Skating and Stickhandling to Beat Worters in Second Period; Bucks Try Hard to Even Game in Last Period But Americans' Defence is Too Tough.

Portland, April 5.—A goal following a faceoff near the Portland net deflected into the goal by McGoldrick's stick was the margin by which the New York Americans defeated the Portland Buckaroos last night 4-3. It was the second last game of the series, New York winning the first game here Monday in overtime play, 2-1. The visitors jumped in front at the start, Reise dashing through the Portland defence and shooting a fast goal in eight minutes and thirty-two seconds. Portland tied it up in one minute and thirty-seven seconds later.

Shortly after the second period started, New York made its lucky goal. Burch hit the puck on the faceoff, driving it toward the Portland net. It bounded off McGoldrick's stick into the net, Burch getting credit for the goal. Conn gave a fine exhibition of skating and stickhandling to score before the period ended.

In the third New York made it four to two when Burch shot a high one from the blue line which hit Timmins on the chest and glanced into the net.

Jacques put the Buckaroos into the game again by going down the side and sending the rubber wheel past Worters. The Bucks tried desperately to tie it up in the last few moments, but the New York defence was too strong. Only one penalty was inflicted—White in the first period.

THE LINE-UP			
Portland	N.Y. Americans	Goal	Worters
Timmins	Defence	Connacher	Reise
McGoldrick	Defence	Burch	Reise
Bowling	Centre	Burch	Reise
Trel	Wing	Conn	Reise
Conn	Wing	Shepherd	Reise
Armstrong	Sub	McVeigh	Reise
Jacques	Sub	Simpson	Reise

SUMMARY
First period—1, New York, Reise, 8:32; 2, Portland, Armstrong, 1:37; 3, New York, Connacher, 16.
Second period—4, New York, Burch, 4:50; 5, Portland, Conn, 6:24.
Third period—6, New York, Burch, 5:56; 7, Portland, Jacques, 10:04.
Penalties—First period, White. Second and third period, none.
Referee—Ukula.

COAST LEAGUE BALL RESULTS

Oakland, Cal., April 5.—Oakland homed four Seattle pitchers for six runs and a 5-5 win yesterday. Seattle had two different leads, but each time heavy hitting by Lombardi, Frazier and Verges put the Oaks out in front. Verges, third sacker, hit a homer in the eighth after Arlett had tripped.

	R	H	E
Seattle	6	8	1
Oakland	5	9	2
Batteries	Wilson, Sut, Fisch, Piggrass and Stepienick; Daglia, Kasch, Hurst and Lombardi, Read.		

San Francisco, April 5.—The Missions noted out the San Francisco Seals, 6 to 5, yesterday in a hard fought game that was decided in the eighth, when the former scored three runs. The Missions tied the count on hits by Boone and Huff and a sacrifice fly, while Deacon Jones, relieving Couch on the mound for the Seals, allowed the winning run with a bad throw home.

	R	H	E
San Francisco	5	9	1
Missions	6	10	2
Batteries	Couch, Jones and Polvoit; Cole and Baldwin; Jones and Polvoit.		

Only two games played yesterday.

"BIG POISON" PLAYS TO-DAY

Paul Waner Comes to Terms With Pittsburgh After a Long Hold-out

Fort Worth, Texas, April 5.—Paul Waner, "Big Poison" of the Pittsburgh Nationals, was in uniform for the first time this year to-day when the Pirates met the Detroit Tigers in the second game of a three-game exhibition series. Waner signed a contract here yesterday afternoon after a long hold-out. Waner left for his home in Oklahoma City to wind up his business affairs. He returned to Fort Worth this morning and will be held ready for another "big season."

Waner, who has been a star for the Pirates since he was signed, announced the terms under which Paul signed. The National League star declared, however, that he was "perfectly satisfied" with the salary stipulation.

Both Paul and Lloyd Waner were hold-outs for most of the Spring training season, but Lloyd came to terms with the Pirates management about two weeks ago. Paul Waner had been holding out for a salary of \$18,000, while his brother signed for \$12,000.

Victoria, B.C.

"The amount of money Saanichtan grants the Publicity Bureau is picaresque," protested Councillor G. F. Watt last night when urging the Saanichtan Council to increase the grant to the Victoria and Island Publicity Bureau. Councillor H. C. Oldfield said the grant was not sufficient and that he would only allow adequate publicity.

Reeve Crouch said the hotels and restaurants in Victoria were the beneficiaries of tourist traffic and should put up the cost of the city's advertising.

Oldfield said that the district had no cause to feel ashamed of its small monetary grant towards advertising the district, as highways maintained by the province were doing the advertising the Island.

Failure greeted a motion by Councillor Oldfield that the grant be increased to \$1,000. Councillor Stubbs being successful in limiting the grant to \$500.

A grant of \$150 was voted to the Automobile Club through the Saanichtan Council, for the purpose of doing work in marking the highways.

Canada is being organized in Montreal. Every aviation concern in the country will be invited to become a member.

Births, Marriages, Deaths

DIED

BAILLIE—Funeral service for the late Rubina Eliza Baillie, who passed away on April 2, will be held on Saturday afternoon at 2 o'clock at the Sands Funeral Chapel, Rev. F. A. P. Chadwick officiating. The remains will be laid to rest in the Royal Oak Burial Park.

BOBBITT—The funeral of the late Albert Bobbitt, who passed away at his home at Royal Oak on Thursday, April 4, will be held on Saturday, April 6, at 3:30 o'clock, at the Sands Funeral Chapel. The Rev. F. A. P. Chadwick will officiate. The remains will be laid to rest in the Royal Oak Burial Park.

SANDERS—There passed away at the home of her parents, 1597 Hamilton Road, Oak Bay, on April 4, Doris Mary Sanders, only daughter of Mr. and Mrs. Arthur Sanders, aged 28 years, born in Seattle, Minnesota, and residing in this city for the past nine years. She leaves to mourn her loss, besides her mother and father, two brothers, Edwin Sanders in Victoria and Arthur Leslie Sanders in Georgia, U.S.A.

The remains are resting at Hayward's E.C. Funeral Chapel, from where the funeral will take place on Saturday afternoon at 3:30. Interment will be made in Royal Oak Burial Park.

HOUSES FOR SALE (Continued)

FOR SALE—SIX-ROOM MODERN BUNGALOW on Dallas Road, near Moss Street, with beautiful view of sea and mountains. Everything up-to-date. Phone 2352.

FOR SALE—SUMMER COTTAGE, LAGOON on Lake, on island highway, sandy beach, safe for children, city water. Further particulars phone 3361. x20-12-22

HOUSES BUILT ON INSTALLMENT PLAN Modern homes for sale, easy terms. D. H. Hale, contractor, Fort and Stadacona.

READ THESE BARGAINS TO-NIGHT and you'll be saying to-morrow "I wish I had bought that house."

PROPERTY FOR SALE

FIVE LOTS IN EDSON, ALBERTA. For sale cheap or would consider local exchange. Write owner, Box 100, Times. 17

HOUSES AND ACREAGE

70-ACRE FARM WITH NINE-ROOM DWELLING

THIS IS AN EXCELLENT PROPOSITION. Part of the land is under cultivation. The dwelling is a fine home with a garage and outbuildings with farming implements. Close to school. Price only \$4,500, or will exchange for small acreage with improvements, close to city.

A SPLENDID BUY ON MOSS STREET

THIS DWELLING, WITH VERY NICE reception hall, living-room, dining-room, kitchen, and pleasant kitchen. Four bedrooms, all with closets. Bath. Grounds, prettily arranged, in lawn and garden. Good reason can be given for the low price asked, which is \$4,200.

NOTE—We have a large listing of country homes on the waterfront. Prices attractive and very reasonable terms.

LIBRARY PLAN AGAIN UNDER SAANICH FIRE

Adamant Attitude of Library on Tickets Policy Causes Irritation

"It would be different if the people read something useful but they read a lot of this 'bunk.' I think we should cut out all library services for about five years and see what comes of it," declared Councillor William Stubbs last night when the Saanich Council was considering the library service appropriation in the annual estimates.

Councillor Watson, advised the appropriation be set at \$2,500, as last year the cost of a limited library service had been \$1,067.

The council assigned \$1,200 for library purposes, after agreeing that the estimate would probably prove too low. Councillor Hagan said that if a larger sum than \$1,200 was included

One Killed And One Hurt In Plane Crash

Portland, April 3.—Lieutenant Ralph A. Floyd, United States army aviator, was killed and Asa F. Clement, Portland police lieutenant, was seriously injured yesterday afternoon when the plane piloted by Floyd crashed to the ground at Pearson Field, Vancouver, Washington, from an altitude of a few hundred feet. Clement had a chance to recover.

Although there were no eyewitnesses, other Pearson Field aviators said they believe Floyd was doing a wing-over at a height of 400 feet and went into a spin with the motor shut off, but was unable to regain control of the machine. It struck nose first and was wrecked.

Floyd died before the body was removed from the wreckage.

PATTULLO SAYS MASSES OF B.C. PEOPLE WILL LOOK TO LIBERALS FOR LEADERSHIP

(Continued from page 1)

HUNDREDS ATTENDED

The dining-room of the Hudson's Bay Company's building, where the banquet was held, was crowded with hundreds of men and women. At the head table were a group of Mr. Pattullo's supporters in the House representing constituencies in every quarter of the Province—Dr. W. H. Sutherland, Dr. J. A. McManis, K. C. of Omineca, George S. Pearson of Nainaiwa, A. Wells Grey of New Westminster and Captain Ian Mackenzie of North Vancouver. The two Mrs. Smiths, Mrs. Mary Ellen Smith and Mrs. Paul N. Smith, candidates in the last general election, also were there, and the former introduced the speaker of the evening.

A. L. Teetzel, president of the Vancouver City Liberal Association, occupied the chair and each of the House members present spoke briefly.

One theme ran through the whole of Mr. Pattullo's review of the activities of the recent session. In each of the many issues upon which the parties had clashed the Liberals had championed the cause of the public as a whole against special interests, he said.

ORDERS-IN-COUNCIL

Having as a citizen of British Columbia and a member of the Legislature been refused the privilege of examining the orders-in-council, Mr. Pattullo said he had raised in the House the question of the right of any citizen to have access to those important records of the decisions of the Government. The orders were simply documentary records of the decisions of the Government. They were the property of the people in the custody of the Government.

"But the Government members voted it was the inalienable right of the citizen to have access to those records," said the speaker. "We were carried back centuries. The Government set itself up as supreme over the Legislature, not the Legislature over the Government. Blood was shed over similar arguments in days gone by. The public perhaps did not realize the seriousness of this situation. They looked upon the attitude of the Government as a burlesque."

"It is a burlesque, but it is our Government, nevertheless, and therein lies the seriousness of the question," said Mr. Pattullo.

"A second marked difference in policy between the Government and the Legislature has arisen over the question of what Hon. W. C. Shelly had termed 'paternalistic legislation,'" said Mr. Pattullo.

The Government, through its Minister of Finance, had intimated clearly that not only would it make no further move along the line of legislation for the social and domestic welfare of the people, but that it considered the Province had gone too far already.

The Liberal policy had been to encourage capital to come in to develop natural resources, but to see that the state helped those who could not help themselves. Efforts by the Opposition to see that the bill giving a charter for operation

of a wireless telephone system in the Province contained a clause protecting the public in the matter of rates were defeated by the cracking of the party whip, although five Conservative members had voted for the amendment, said Mr. Pattullo.

to take the P.G.E. "off our hands" if the Government was granting charters to party followers who were not railwaymen at all, for lines that would in a short time probably be worse off than the P.G.E.

PUBLIC UTILITIES

The most important bill of the session, the public utilities measure, had been brought down in the dying hours. The Liberals had sought to protect the public interest by an amendment providing that utility companies should be allowed to earn profits only on the money prudently and honestly invested and not on assets acquired through excess profits ploughed into capital.

"The majority voted down our amendment," Mr. Pattullo declared.

Mr. Pattullo denounced "whole-sale dismissals of tried and proved civil servants and public officials outside the service to make way for partisan favorites." Such a practice was demoralizing public service and must prove costly.

"Under these circumstances it is an wonder they amended the Constitution Act so that in the event of any reorganization of the Government new Ministers do not have to go to the people at by-elections," asked the Liberal leader. "There is going to be a reorganization. It is inevitable, but I say the Government would not be so ruthless in its treatment of the civil service if it had to face the people in a by-election when that change takes place. They are trying to do the rough stuff in their first year, hoping it will be forgotten three or four years later, but I say the Government should be responsive to public sentiment at all times."

The only benefit in the amendment

was the fact that it would allow the Government to pay no succession duty.

Premier Tolin had stated his Government intended to carry on its business "open and above board," but the policy of secrecy with regard to orders-in-council was understandable "in view of the desire to keep secret the contract made to pay a commission of one per cent for financial advice on the sale of bonds up to \$20,000,000."

As such service had always been freely obtained by the Liberal Government, there seemed no reason for the commission, which would cost the people a large sum, but the vital thing was the departure from the principle of sale by public tender.

Mr. Pattullo denounced the granting of a major railway charter to "party henchmen" without the Legislature being given an scrap of information about the identity or stability of the men associated with the enterprise.

"We were asked to accept the word of a private member that the Premier was satisfied and the supreme Conservative majority did accept it," stated Mr. Pattullo.

TRANSPORTATION OUTLOOK

After explaining how it had become the responsibility of the two great transportation systems of the country to take care of the railway needs of the country, Mr. Pattullo asked how British Columbia could expect them

WHITNEY LETTER

By Branson, Brown & Co. Ltd.

New York, April 5.—Whitney, of the Wall Street Financial Bureau, says today:

ADDITIONAL ADVANCE TO-DAY

"I believe that the action of yesterday's market substantiates the thought expressed here that correct market procedure calls for the purchase of stocks on reaction, and not their sale on rallies. The call money rate continues its decline as we expected it would, and while I doubt that it will go below the 6 per cent rate established yesterday, that rate is certainly low enough to eliminate the possibility of money market being a drag on the stock market."

"I believe you will find that no change has been made in the New York discount rate, and that brokers' loans are down between \$5,000,000 and \$6,000,000. Likewise, I believe that there will be a statement from the meeting of the governors of federal reserve banks in Washington, and that this statement will be a general one, expressing satisfaction with what has been accomplished by the board's policy, and at least intimate that in view of this, discount rates will be undisturbed. If these beliefs are confirmed, as I believe they will be, then we can certainly look forward to further improvement in prices to-day, both industrials and rails."

COMMENT

"Both U.S. Steel and American Can were recommended for purchase yesterday, and these issues have assumed joint leadership. While, of course, the following cannot be guaranteed, I believe you are going to find that the U.S. Steel recapitalization plan will be approximately as follows: Right to subscribe to two new shares for each seven held at a price of approximately \$11 a share; further, that earnings of the first quarter have risen slightly in excess of \$4.50 a share. I have expressed the opinion in the past that Steel was still to go above \$200, and continue of that opinion, I expect Bethlehem to continue its advance, discounting its first-quarter earnings report which should show close to \$4 a share."

"I look for the advance in Texas Gulf Sulphur to be resumed to-day, and continue to recommend it for purchase while available below \$2, and likewise continue the recommendation to purchase Amn. T. & T. below \$25."

"Official statements from the leaders of the oil industry assure us that the conservation plan will be carried out, and this means continuation of the advance in the oil group. The three Standards, N.Y., N.J. and California, as well as Pan American, which is standard controlled, are overpriced, and should be purchased."

"General Refractories has started a much overdue advance and in view of earnings cannot see how the stock can be regarded as overpriced. It is undervalued, particularly while available below \$75."

"For the balance of the week, New York fractions should continue their advance, anticipating the supreme court decision Monday of next week."

TO-DAY'S EXCHANGE

New York, April 5.—Foreign exchanges steady.

Great Britain—Demand 484 13-16, cables 485 11-32, 60-day bills on bank 480 1/2.

France—Demand 390 1/2, cables 390 11-16.

Italy—Demand 522 1/2.

Belgium—Demand 132 1/2.

Germany—Demand 230 1/2.

Holland—Demand 40 5/8.

Norway—Demand 26 1/2.

Sweden—Demand 26 1/2.

Denmark—Demand 26 1/2.

Switzerland—Demand 19 1/2.

Spain—Demand 15 1/2.

Greece—Demand 12 1/2.

Czechoslovakia—Demand 2 1/2.

Yugoslavia—Demand 1 1/2.

Austria—Demand 14 1/2.

Roumania—Demand 5 1/2.

Argentina—Demand 42 1/2.

Brazil—Demand 11 1/2.

Tokyo—Demand 13 1/2.

Shanghai—Demand 61 60.

Montreal—Demand 90 40 1/2.

New York, April 5.—Call money easy, high 8, low 6, ruling rate 8, closing bid 6.

Time loans firm, mixed collateral 60-90 days 9, 4-6 months 9.

Prime mercantile paper 5 1/2-6.

Bankers' acceptances unchanged.

BOND MARKET IN BAD SHAPE; BORROWERS MUST PAY HIGH

New York, April 5.—The bond market again dropped into the doldrums to-day, with sales running well under \$10,000,000 for the day. A slight easing in the time money market and cheaper call funds failed to have a stimulating effect on the market. Time money was quoted at 9 per cent for short maturities, and 8 1/2 to 9 per cent for the longer dates, compared to 8 1/2 and 9 per cent yesterday.

Dealers' shelves are reported loaded with bond issues, awaiting a more favorable market with banks reported growing more reluctant to loan on unsecured bonds. Traders are taking only those issues that seem assured of an immediate market.

Dealers are holding aloof from the market now, being forced to place loans at fairly high interest rates to make funds for pressing improvements.

Difficulties in floating bonds is reported by the Federal Reserve Board.

N.Y. Market Gossip

(By Branson, Brown & Co. Ltd.)

New York, April 5.—Yellow Truck & Coach Mfg. Co. 1928 consolidated net loss \$1,041,411 after expenses, depreciation, against net loss of \$6,585,691 in 1927, after special write off.

American Machinery and Pay Co. declared regular quarterly dividends of \$1.00 on common and \$1.75 on preferred, payable May 1, record April 1.

West Penn. Electric Co. declared regular quarterly dividends of \$1.75 on 8 per cent cumulative preferred and \$1.50 on 6 per cent cumulative preferred, both payable May 15, record April 1.

Amerasia Corporation declared regular quarterly dividend of 50 cents. A. Jacob elected president to succeed E. A. Colyer, elected chairman.

Bureau of Internal Revenue holds gasoline tax deductible from income in ruling of Michigan cases.

Governor of the twelve reserve bank districts have been meeting in Washington since Monday, found the volume of work quite heavy, and so great that they postponed their contemplated conference with the Federal Reserve Board until to-day.

Three Canadian aviation firms, J. Fairchild, International and Canadian Airways, in a deal. They will retain their own identities.

An increase of one cent a gallon to 13 cents in the tank wagon price and 15 cents a gallon in the several service station price was announced by Standard Oil of Ohio.

Willis Overland Co. produced 39,000 cars in March, against 32,000 in 1928, making 100,000 produced in first quarter. The new record.

For the first three months of the year, Pig Iron production amounting to 10,363,028 tons was the highest for any first quarter and the second largest for any quarter having been exceeded only by the output for April, March and January.

Youngstown—In this district it is considered unlikely Youngstown Sheet and Tube Co. will increase its price from current rate this year from current \$5 basis, but extra payment may be authorized at end of year. Current earnings applicable for common are reported at \$1.25 a share monthly.

(Over R. P. Clark Leased Wire)

New York, April 5.—The oil stocks can be considered to be in about the same position the coppers were before mine owners agreed to restrict production. The right people have the oil stocks now and are sitting for the big play in some quarters. This advice is freely given to switch from coppers to oil. Among the oil which are likely to have sharp activities are Houston, Barnsdall, Indian Refining, Rio Grande, Jersey and Atlantic Refining. An exceedingly strong group has taken hold of the oil stocks, discounting its first-quarter earnings report which should show close to \$4 a share.

Texas Gulf Sulphur continues to give a good account of itself market-wise. The first quarter report of the company, which is standard controlled, is overpriced and should be purchased.

"General Refractories has started a much overdue advance and in view of earnings cannot see how the stock can be regarded as overpriced. It is undervalued, particularly while available below \$75."

"For the balance of the week, New York fractions should continue their advance, anticipating the supreme court decision Monday of next week."

"Official statements from the leaders of the oil industry assure us that the conservation plan will be carried out, and this means continuation of the advance in the oil group. The three Standards, N.Y., N.J. and California, as well as Pan American, which is standard controlled, are overpriced, and should be purchased."

Reserve Again Warns Wall Street To Slash Loans; Stocks Off To-day

Wall Street, New York, April (By B. C. Bond)—After running up fast yesterday, the market ran down to-day, losing less than half its gain.

Call money dropped from eight per cent early in the session to six per cent in the latter part.

Total sales for the day were 3,405,700 shares.

At the close the Dow Jones average of thirty industrials stood at 303.04, off 2.33 points for the day, and the average for twenty rails at 150.70, off 3.35 points for the day.

THE TINYMITES

STORY BY MAL COCHRAN PICTURES BY JONCK

READ THE STORY, THEN COLOR THE PICTURE

The Goofygoose soared "way up high and downy" and "me on my" This cabin is a classy one. We could not ask for more. There's room for everyone of us, so no one needs to start a fuss. We all can sit and wonder just where we are heading for.

"I hope this Goofygoose is kind, 'cause if he is I will not mind his taking us a long, long way, to some land we've never seen. But, gee, just think how we would flop, if he'd decide to let us drop. Let's all be mighty nice to him, so he will not be mean."

The Goofygoose, still flying fast, heard this remark and said, at last, "Oh, we will all be friendly, 'cause I like you Tinymites. I'll keep you safely in the breeze and dodge the towering posts and trees. Don't be the least bit frightened if I rise to wondrous heights."

"Go right ahead. We're satisfied to

just sit here and calmly ride," said Scouty. "Don't jerk so much. It makes this cabin swing." "I can't help that," the bird snapped back. "The wind blows me right off my track. The cabin's hard to carry. It's a clumsy little thing."

Just then they heard a distant roar. "Ah ha, it's going to rain some more," exclaimed the long-necked Goofygoose. "There's thunder in the air." And then the rain began to fall. The Tinymites huddled one and all. The rain drops didn't touch them, so of course, they didn't care.

But for the Goofygoose 'twas sad. The rain was soaking him real bad. Right quick—he did a funny thing, while skimming through sky—into the cabin came his head. "Ha, ha, I'll fool the rain," he said. "As long as my head's in here it is bound to keep real dry."

To-morrow's Horoscope

SATURDAY, APRIL 6, 1929
Although there are certain sinister aspects in the horoscope for to-day, the stars show the planetary government benefic.

The early morning is a time to push work that belongs to the soil and should be a period beneficial to farmers and gardeners. Real estate should be lucky at this time when there will be much activity in all parts of the United States.

Those who have foreseen at this time will seek to own land and to provide safety against future economic upheavals.

While prosperity is to be enjoyed in the United States the stars declare that new fortunes immense in size will pile up, and the cleavage between the rich and poor will be more distinct than formerly.

Mexico continues under a sinister rule of the stars, which may encourage revolution and violence.

For the states bordering on the southern republic international problems are fore-shadowed.

Neptune is in an aspect read as exceedingly threatening where prohibition enforcement is concerned.

Again the stars prophesy for regions ruled by Saturn and Uranus broken treaties, changes in government and sudden calamities.

War clouds are discerned for the central states of Europe, and it is pronounced that again the United States will extend aid to victims of battles and their families.

Banking combinations between institutions in Great Britain and the United States, foretold last summer, are again prophesied.

Persons whose birthdate it is have the

signs of money that will be received from unexpected sources. The year should be lucky.

Children born on this day probably will have a certain mystic power. The subjects of this sign usually are noble in nature and they usually have influential friends.

BEDTIME STORY

Uncle Wiggily's Funny Mistake

Copyright, 1929, by McClure Newspaper Syndicate
By HOWARD R. GARIS

Uncle Wiggily stood beside the Little Puddle and looked down on it. The Little Puddle, as I told you in the story before this, was one made by the rain in a hole of the green field. But the Little Puddle was unhappy and wanted to grow big, when Bully and Bawly, the frogs, made fun of it and said such a tiny bit of water wasn't enough for them to go swimming in.

"So you want to grow into a Big Puddle, do you, little chap?" asked the rabbit gentleman.

"Oh, very much," murmured the water. "And you said you would help me. Did you mean it?"

"Of course I meant it," answered Mr. Longears. "I don't want to see anybody unhappy. Though, if I were you, I should be satisfied to remain a Little Puddle. You are so cute and pretty, with the green grass growing all around you. And soon there will be May flowers for you to water. Besides, if you turn into a Big Puddle, no one will see the pretty stones that now you only partly cover."

Uncle Wiggily scratched his pink twinkling nose

"Oh, no! No!" whispered the Little Puddle. "I want to grow big, like the frog pond, or even like a lake. Or as big as the brook I hear chattering over there where Bully and Bawly were swimming. Please, Uncle Wiggily, help me to grow big!"

"Very well," answered the rabbit gentleman. "You shall have your wish. But don't blame me if it doesn't turn out as you hope."

"I shan't blame you!" cried the Little Puddle as the rabbit puffed its top, making it look like a piece of lace amid the green grass. "I want to be as big and nifty as the brook."

"I am going to make you a part of the brook," said the rabbit.

"Oh, are you?" exclaimed the Little Puddle. How joyful! How wonderful! How surprised! It was all exactly what he wanted.

"Yes," went on Uncle Wiggily. "The only way to make a little Puddle become a Big Puddle is to put more water in it. Now you said you asked the rain to make you bigger, but it didn't."

"No," answered the Little Puddle, "it didn't."

"Then," went on the rabbit gentleman, "the brook shall do it."

"But I don't understand," sighed the Little Puddle. "The brook is on the other side of the field, and I am here. How can the brook help me to become big?"

"I will dig a ditch or canal through the earth, from you to the brook," said Mr. Longears. "I have often seen my little rabbit boys and girls digging ditches, on rainy days, to let water from one puddle run into an-

other. I shall do that now. The ground is soft and I am a good digger. As soon as I have made a little canal from the brook to you, water from the brook will run over here and you will soon swell up big, though I hope you do not grow too proud."

"Oh, no, I promise you I shall not," said the Little Puddle quickly. "Dear Uncle Wiggily! How big do you think I shall be when you have dug the ditch so the brook water can run into me? How big?"

"Quite big enough, I'm sure," said the rabbit.

So he began to dig with his paws, as all rabbits can, and as some dogs do. How the dirt flew! There was quite a shower of gravel so that the green grass asked:

"What is going on?"

"I am making Little Puddle into a Big Puddle," said the bunny.

At last the ditch was finished, all but a little dirt at the edge of the puddle and a little more dirt at the edge of the brook. Uncle Wiggily quickly broke away these dirt walls and presto! In an instant the water began to flow.

But Uncle Wiggily had made a funny mistake. He did not know that the Puddle was on top of a little hill and that the brook was at the bottom of the hill. And water always runs down hill. So, instead of the puddle running into the brook, the puddle ran into the brook.

Away through the ditch that the rabbit had dug flowed all the water of the Little Puddle and into the brook it ran.

"Oh! Oh! dear!" cried the Puddle. "I am growing smaller, not bigger! Oh, dear!" And as the last of its water flowed down into the brook, which made it welcome, Uncle Wiggily scratched his pink twinkling nose and said:

"What a very funny mistake! Well, that's the last of the Little Puddle!" And so it was, though it lived for many years in the water of the brook and, really, was quite as happy as it had been before.

And now, if the piece of cheese will kindly help the ankle me jump over the sugar bowl, I'll tell you about Uncle Wiggily's brass buttons.

There remain approximately 194,000,000 acres of unappropriated public lands in the United States, exclusive of the territory of Alaska.

With bright buckle. The very new-est for the young miss. Sizes 11 to 2, **\$3.25**

SEATTLE SHIPPING

Seattle, April 5.—A heavy building programme of the Federal Bureau of Education in Alaska will necessitate an extra trip north for the bureau's auxiliary schooner Boxer. On the first of her three trips she is to make four teen calls in southeastern Alaska, sailing from Seattle April 12. The Boxer's annual voyage to Point Barrow, Alaska, most northerly settlement, will

SAGE'S HABITS TOLD

Mr. Andrews produced the picture of Tagore, in an attitude of repose and prayer. He said:

"For from three to four hours every day, immediately before the sun comes up, Tagore meditates. He sits silent and communes with God.

"And that is not new to the Western world," said Mr. Andrews. "For in the First Psalm is it not stated that the perfect man doth 'meditate upon God's laws day and night'?"

He said that Tagore thus withdraws from all human contact and contemplates himself, doing what David the Psalmist said:

MARIN

Spoken By Wireless

San Francisco, April 5.—A change in the schedule of the Pacific division fleet of the United States Fruit Company was announced here yesterday by H. M. Huff, Pacific Coast traffic agent of the company.

Effective with the sailing of the steamer *Esperita* April 19, steamers of the fleet will sail from here on Friday instead of Saturday. Perishable

cargo, under refrigeration will be handled at ports of call every other week. Under the change of the schedule, the run between San Francisco and Cristobal will be made in	day from New York by way of the Panama Canal and ports in Mexico and Central America. Bad weather caused the delay of the vessel.

30	1.09	8.4	13.45	2.4			

The time used is Pacific standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish heights from low water. Where bluffs or

water from low water, where bluffs occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.
